FUNDAMENTALS

Paper No	SPEAKER / ORGANISATION	TITLE OF PAPER	CO-AUTHOR(S) / ORGANISATION	Page No
1	**Prof Martine Wevers** *KU Leuven, Belgium*	**Keynote Speaker - Fundamentals of Acoustic Emission**		1
21	**Mr Steffen Krümmling** *Institut für Stahlbau, Germany*	Damage Detection on Structural Steel ST52 in Low-Cycle Fatigue with Acoustic Emission	**Prof Udo Peil**, Institut für Stahlbau	11
25	**Dr Stuart McBride *** *AEMS, Canada*	Acoustic Emission Monitoring of Plastic Deformation and Fatigue Crack Propagation in an Aluminum which Exhibits Localized Yielding		17
26	**Dr Stuart McBride *** *AEMS, Canada*	Relation Between Acoustic Emission Amplitude and Source Energy for Crack Growth in Aluminum Alloys and Steels		19
28	**Prof Kenichi Yoshida** *University of Tokushima, Japan*	Acoustic Emission and Discontinuous Yield Behaviours in Al-Li-Cu-Mg-Zr Alloy	**Pang Baojun/Zhu Ai /Kiyoshi Sakamaki/Hitoshi Takagi**, University of Tokushima	21
34	**Dr Alexander Wanner** *Institut für Metallkunde, Germany*	Monitoring of Deformating-Induced Acoustic Emission from Polycrystals of the Semi-Brittle Intermetalic Compound NiAl	**Thomas Bidlingmaier**, Institut für Metallkunde	27
51	**Prof Josef Sikula** *Technical University of Brno, Czech Republic*	Electromagnetic and Acoustic Emission from Solids	**B Koktavy/P Vasina/Z Weber/M Korenska**, Technical University of Brno **T Lokajicek**, Academy of Science of the Czech Republic	33
16	**Mr Fergal Murphy** *Marathon International Petroleum, Ireland*	Crack Life Prediction based on AE Measurements	**Len Rogers**, SubSea Offshore	39
40	**Dr Ali Siddiqui** *The Robert Gordon University, Scotland*	The Study of Stress Corrosion using Acoustic Emission	**Sha Jihan/MAS Sweet /Bradley Knowlton**, The Robert Gordon University **Stuart Birley**, Defence Research Agency	51

COMPOSITES

Paper No	SPEAKER / ORGANISATION	TITLE OF PAPER	CO-AUTHOR(S) / ORGANISATION	Page No
2	**Mr Phillip T Cole** *Physical Acoustics Limited, UK*	**Keynote Speaker - Composites**		57
7	**Mr Marnix Surgeon** *Katholieke Universiteit Leuven, Belgium*	Damage characterisation during tensile testing of glass-ceramic matrix composites using acoustic emission	**E Vanswijgenhoven/M Wevers/O Van Der Biest,** Katholieke Universiteit Leuven	71
14	**Dr Jürgen Bohse** *BAM, Berlin, Germany*	Acoustic Emission Characteristics of Damage Mechanism in Reinforced Thermoplastics	**Torsten Krietsch,** BAM Berlin	79
18	**Dr Hans Strauven** *Pittsburgh Corning Europe NV, Belgium*	Acoustic Emission for the follow-up of creep in cellular glass	**G Crevecoeur,** AIB-Vincotte **C Maes,** KU Leuven **G Claes/G Heylen,** Pittsburgh Corning Europe NV	85
24	**Dr Stuart McBride *** *AEMS, Canada*	Thermally Induced Acoustic Emission from Impact Damage in Graphite Epoxy Composites		91
32	**Mr Richard Nordstrom** *EMPA, Switzerland*	Comparison of AE from Glass Fiber Breaks in Bundles and in Single Fiber Fragmentation Test	**MB Sayir,** ETH **P Flüeler,** EMPA	93
37	**Dr Werner Haselbach** *Institut für Polymer-forschung, Germany*	Characterisation of Polymers in Materials Science Supported by Freqency Analysis	**Konrad Schneider,** Institut for Polymerforschung e.V.(D)	99
8	**Dr Thomas Lokajicek** *Academy of Sciences of the Czech Republic*	Influence of Rock Grain Size on Energy of Acoustic Emission	**Vladimir Rudajev,** Academy of Sciences of the Czech Republic	105
33	**Dr Bogdan Zogala** *University of Silesia, Poland*	Acoustic Emission and Acoustic Velocity in Mudstone and Sandstone Samples Cyclicly heated to 180°C	**Waclaw M Zuberek /Ryszard Dubiel,** University of Silesia	111
39	**Mr Dipl-Phys Bernd Weiler** *FMPA Stuttgart, Germany*	Quantitative Acoustic Emission used for the Evaluation of Fracture Mechanisms in Steel Fibre Reinforced Concrete	**Christian U Grosse/Hans W Reinhardt,** FMPA Stuttgart	111

* Full Paper not available at time of printing

CONTENTS (cont)

APPLICATIONS 1

Paper No	SPEAKER / ORGANISATION	TITLE OF PAPER	CO-AUTHOR(S) / ORGANISATION	Page No
3	**Mr Emilio Fontana** * *Cise S.p.A, Italy*	**Keynote Speaker - Proof Testing**		**125**
4	**Dr Len Rogers** *SubSea Offshore Ltd, Scotland*	**Keynote Speaker - Monitoring**		**127**
52	**Dr David Mba** *Cranfield University, UK*	Stress Wave Detection for Condition Monitoring of Low Speed Rotating Machinery	**Dr RH Bannister**, Cranfield University **JT Leslie/GE Findlay**, Severn Trent Water Limited	143
13	**Dr Mohammed Cherfaoui** *CETIM, France*	Acoustic Emission: New Discoveries in Acoustic Emission Checks on Pressure Vessels during Supervised Tests or Resistance Tests	**C Herve**, CETIM (Senlis) F	149
29	**Dr Jean Charles Anifrani** *Aerospatiale, France*	Rupture Pressure Prediction for Composite High Pressure Tanks using Acoustic Emission	**C Le Floch**, Aerospatiale **D Sornette/C Vanneste**, Laboratoire de Physique de la Matiere Condenses/X-RS **B Souillard**, X-RS	155
20	**Dr Michael Gorman** * *Digital Wave Corporation, USA*	Modal Acoustic Emission for Composite Plates		163
15	**Mr Eddie O'Brien** *British Aerospace Airbus, UK*	Developments in Remote Crack Detection and Monitoring by Acoustic Emission for Aircraft Applications		165
23	**Dr Stuart McBride** * *AEMS, Canada*	Acoustic Emission Monitoring of Full-Scale Fatigue Tests on Canadian Forces Aerospace Structures		171
50	**Mr Chris Rowland** *Pancom, UK* **Mr Simon Church** *Rolls-Royce PLC*	Flight Clearance of Carbon Composite Aero-Engine Components using Acoustic Emission		173
12	**Dr Trevor Holroyd** *Holroyd Instruments Ltd, UK*	Simplifying the Routine Application of AE in Industry	**Neil Randall**, Holroyd Instruments Ltd	179
22	**Mr Volker Hänel** *Technical University Berlin, Germany*	Acoustic Emission Testing of Bolted Connections under Tensile Stress	**Wolfgang Thelen**, Technical University Berlin	185

* Full Paper not available at time of printing

STANDARDS & INSTRUMENTATION

Paper No	SPEAKER / ORGANISATION	TITLE OF PAPER	CO-AUTHOR(S) / ORGANISATION	Page No
6	**Mr Emilio Fontana *** *Cise S.p.A, Italy*	**Keynote Speaker - Standards**		**261**
45	**Dr Sotirios Vahaviolos*** *Physical Acoustics Corporation, USA*	1st Generation AE Digital Signal Processing (DSP) Multichannel Systems	**EP Lowenhar/ CS Fotopoulos/MF Carlos,** Physical Acoustics Corporation	263
10	**Mr Hartmut Vallen** *Vallen Systeme GmbH, Germany*	Software Filters in AE Technology		265
53	**Dr Thomas Lokajicek** *Academy of Sciences of the Czech Republic*	Complex Multichannel System for Continuous Monitoring of Acoustic Emission and Related Parameters	**Jiri Vlk,** Science - Firmware, Czech Republic	271
31	**Mr Thomas Benziger** *Otto-Von-Guericke-University Magdeburg, Germany*	Laser Induced Acoustic Emission - First Results and Restrictions to the Application	**G Brueggemann,** Otto-Von-Guericke-University Magdeburg	277
27	**Dr Peter Pellionisz** *KFKI Atomic Energy Research Intitute, Hungary*	Novel Instrumentation of Investigations of Magneto-Acoustic Effect	**G Posgai,** Metalelektro **L Komlodi/LKovacs,** Budapest Technical University	283
43	**Dr Sotirios Vahaviolos*** *Physical Acoustics Corporation, USA*	Sensitivity and Noise Models for AE Sensors		289
38	**Mr Bernd Weiler** *FMPA Stuttgart, Germany*	Calibration of Acoustic Emission Transducers - A Comparative Study of Different Methods	**Christian Grosse/Hans Reinhardt,** FMPA Stuttgart	291
44	**Dr Sotirios Vahaviolos*** *Physical Acoustics Corporation, USA*	AE Sensor comparisons using the NIST Primary Calibration Method (ASTM E 1106)		297
46	**Dr Carlo Santulli** *Joint Research Centre - ISIS - ISPRA (Italy)*	Analysis of Manufacturing Problems related with Metal-Metal Aerospace Structural Joints through Acoustic Emission and Differential Scanning Calorimetry	**A Calabro,** CIRO-CAPUA (Italy) **F Billi/D Sangalli,** JRC-ISIS-ISPRA (Italy) **M Giordano,** Univ di Napoli	299

* Full Paper not available at time of printing

CONTENTS

DAY 1

Speaker/ Organisation	Title of Paper	Co-Author(s)/ Organisation	Page No.
Prof. Dr. Josef L. Zeman *Vienna University of Technology, Austria*	Pressure Equipment and AET		1
Prof. Martine Wevers *KU Leuven, Belgium*	Fatigue Damage Growth Models for Quasi-Isotropic CFRP Laminates Formulated Using AE Data	**D. Tsamtsakis** - KU Leuven	5
Dipl.-Phys. Torsten Krietsch *BAM Berlin, Germany*	Classification of Damage Mechanisms in Fibre Composites by Acoustic Emissions	**Jürgen Bohse** - BAM Berlin	9
Dir. Athanassios A. Anastassopoulos *Envirocoustics S.A., Greece*	Pattern Recognition Analysis of AE from Composites	**Theodore Philippidis** - University of Patras	15
Mr. Marnix Surgeon *KU Leuven, Belgium*	Damage in cross ply CFRP laminates: correlation between AE signals measured with conventional AE equipment and signals measured with embedded optical fibres	**Prof. Martine Wevers** - KU Leuven	21
Ing. Carlo Santulli *EC Joint Research Centre Ispra, Italy*	A Study of the Reliability of Neural Network Approach to Manage Acousto-Ultrasonics Results on Adhesive Bonded Joints		27
Dr. Jean-Claude Lenain *Euro-Physical Acoustics SA, France*	Acousto-Ultrasonic Evaluation of Hybrid Composites Using Oblique Incidence Wave Theory	**Dr. Y. Li, Dr. Sotirios Vahaviolos, Dr. R.K. Miller** - Physical Acoustics Corp.	33
Ing. Lubos Pazdera *Technical University of Brno, Czech Republic*	Acoustic Emission in Static Tests of Sandwich Boards with Steel Jacketing and Thermal Isolation	**Ing. Marta Korenska, Dr. Zdenek Weber** - Technical University of Brno	38
Mr. Gerd Manthei *Ges. für Materialprüfung und Geopyhsik, Germany*	Acoustic Emission Measurements in a Salt Mine Using a Special Borehole Probe	**Jürgen Eisenblätter** -GMuG **Peter Kamolt** - Institut für Gebirgsmechanik, **Stefan Heusermann** - Bundesanstalt f. Geowissen-schaften und Rohstoffe	42
Dr. Vladimir Rudajev *Academy of Sciences, Czech Republik*	Characteristics of acoustic emission from rocks for different loading patterns	**Jan Vilhelm** - University of Charles **Tomas Lokajicek** - Academy of Science	48
Mr. Ryszard Dubiel *University of Silesia, Poland*	Analysis of acoustic emission signals sequence induced by thermal stresses in mudstonde samples	**Dr. Bogdan Zogala** - University of Silesia	53
Mr. Emilio Romero *AEND, Spain*	The European Standard EN-473. Aspects related with the acoustic emission testing.		59
Ing. Carlo Santulli *EC Joint Research Centre Ispra, Italy*	Thermal Damage Analysis and AE Localisation on Honeycomb Panels	**Dr. Fabrizio Billi, Prof. Claudio Caneva** - Universita „La Sapienza"	63

1998

Speaker/ Organisation	Title of Paper	Co-Author(s)/ Organisation	Page No.
Dipl.-Ing. Hannes Traxler *Plansee AG, Austria*	Acoustic emission of oxidation protective coating under mechanical and thermal load	**Dr. Peter Rödhammer, Dr. Wolfram Knabl** - Plansee AG **Prof. Dr. Ewald Benes** - TU Wien	68
Dipl.-Ing. Werner Przybilla *Dechema, Germany*	Monitoring stress relaxation processes in growing oxide scales via acoustic emission analysis	**Dr. Michael Schütze** - Dechema	74
Dipl.-Ing. Jiri Dvoracek *Technical University of Brno, Czech Republic*	Acoustic Emission and Contact Properties of Surface Layers of Materials	**Jiri Petras, Pavel Mazal, Dusan Kolar** - Technical University of Brno	80
Prof. Josef Sikula *Technical University of Brno, Czech Republik*	Acoustic Emission and Partial Discharges in Ceramic Tiles	**Hana Navarova, Bohumil Koktavy, Iva Kosikova, Pavel Koktavy, Petr Vasina** - Technichal University of Brno	84
Prof. Martine Wevers *KU Leuven, Belgium*	The Fatigue Failure of Steel Wires Monitored with Acoustic Emission	**M. Surgeon, E. Vanswijgenhoven, L. Froyen, X. Zeliang** - MTM KU Leuven **J. Ceulemans, U. D'Haene, S. De Bondt** - NV Bekaert	88
Dipl.-Ing. Thomas Bidlingmaier *Universität Stuttgart, Germany*	Acoustic Emission Monitoring during Compressive Deformation of y-TiAl-Base Alloys	**Helmut Clemens, Alexander Wanner** - Universität Stuttgart	93
Prof. Kenichi Yoshida *The University of Tokushima, Japan*	Effect of Grain Boundaries on Acoustic Emission Behavior during Tensile Deformation of Ni3Al Intermetallic Compound	**H. Takagi, K. Sakamaki** - The University of Tokushima	99
Ing. Lubos Pazdera *Technical University of Brno, Czech Republic*	Analysis of Acoustic Emission Signals as a Tool to Study Crack Propagation in Breathing Thin Walled Systems	**Dr. Zdenek Weber, Ing. Marta Korenska** - Technical University of Brno	104
Dr. Werner Haselbach *Institut für Polymerforschung Dresden, Germany*	Acoustic Emission Characteristics of Graphite Epoxy Rings Depending on Filament Winding Parameters	**Dr. Konrad Schneider** - JPF Dresden **Luis Madariaga** - Gaiker, Bilbao	108

DAY 2

Speaker/ Organisation	Title of Paper	Co-Author(s)/ Organisation	Page No.
Mr. Lutz Lindecke *University of Rostock, Germany*	Materials Characterization by Instrumented Indentation Test with Acoustic Emission Analysis	**U.-D. Hünicke, W. Kowalski** - University of Rostock	114
Dr. Sergey V. Yamtschikov *Scientific-Production Company, Russia*	AE-Technology of Checking a Quality of Process of Induction Welding of Lashes of Pipes	**S.G. Aliev, V.A. Chovgansky, D.M. Gureev, V.I. Ilyasov, V.N. Sidorov, M.M. Zagirov** - Scientific-Production Company	120
Dr. Richard Nordstrom *Vallen-Systeme, Germany*	Methods for Use against Noise in AE-Testing	**Dipl.-Ing. Hartmut Vallen** - Vallen Systeme	124
Prof. Josef Sikula *Technical University of Brno, Czech Republic*	Cracks and Quality Testing by Acoustic and Electromagnetic Emission	**Bohumil Koktavy, Petr Vasina** - Technical University of Brno **Tomas Lokajicek** - Academy of Science	130
Mr. Peter Pellionisz *KFKI Atomic Energy Research Institute, Hungary*	Secondary effects in magneto-acoustic investigations		134
Dipl.-Ing. Joachim Sell *Euro Physical Acoustics, Germany*	Quality Control Prooftest with AE of Ceramic Cooling Plates	**Dr. L. Weiler** - ABB Heidelberg	140
Dr. J. M. Carpreau *Institut de Soudure, France*	Testing LPG Tanks by Acoustic Emission	**E. Eberhardt** - Butagaz **Ing. G. Schauritsch, Dipl.-Ing. P. Tscheliesnig** - TÜV Austria	146
Dr. Miroslav Priban *on behalf of ADA Akusticka 'Emise, Czech Republic*	On line monitoring of an ammonia reactor and connected structures with respect to fitness for service analysis	**Jiri Blaha** - ADA Akusticka' Emise **Jozef Zbirka** - Duslo Sala	151
Dr. Len Rogers *Lloyd's Register of Shipping, U.K.*	Acoustic Emission from cleavage fracture events and fluid leakage - theory and practice		157
Mr. Dalius Jucius *Kaunas University of Technology, Lithuania*	An acoustical method for detection of leakage of gas pipeline	**Jonas Butkus, Leonas Jakevicius, Olgirdas Tumsys** - Kaunas University of Technology	164
Dr. Sotirios J. Vahaviolos *Physical Acoustics Corporation, USA*	Leak Location Using the Tuned Linear Approach and Modified Signal Difference Technique	**Dr. J.W. Dong, Ph. T. Cole, M.F. Carlos, Dr. R.K. Miller** - Physical Acoustics Corp.	170
Mr. Peter J. van de Loo *Shell Global Solutions, Netherlands*	Acoustic Emission tank testing: How to dsicriminate between the onset of corrosion and further stages of degradation?	**D. A. Kronemeijer** - Shell Global Solutions	174

Speaker/ Organisation	Title of Paper	Co-Author(s)/ Organisation	Page No.
Mrs. Christel Rigault *CETIM, France*	Inspection and surveillance of metallic pressure vessels during the proof test	**C. Herve, M. Cherfaoui** - CETIM **P. Tscheliesnig** - TÜV Austria **A. Ferreira** - INEGI **M. Soutif, S. Cras** - BSL Industries **H. Vallen** - Vallen Systeme	180
Mr. Attila Peter *KFKI Atomic Energy Research Institute, Hungary*	Monitoring Nuclear Pressure Vessels During Pressure-test by Acoustic Emission	**V. Lukacs, L. Komlodi, L. Kammel** - KFKI AEKI	184
Dipl.-Ing. Peter Tscheliesnig *TÜV Austria*	Repitition Tests of Steam Drums in Paper Mills		190
Mr. Igor V. Razuvaev *ALCOR Corp., Russia*	Continuous acoustic emission monitoring of the bulk isothermal vessels in service	**Alexander S. Klochkov** - ALCOR Corp., **Sergey.N. Pichkov** - OKBM, **Alexander V. Derjugin** - JSC „Petrochem"	195
Mr. Gongtian T. Shen *CBPVI, China*	Acoustic Emission Progress in China		200
Mr. Attila Peter *KFKI Atomic Energy Research Institute, Hungary*	Acoustic Impact Monitoring in the Space Research	**L. Komlodi** - KFKI AEKI	206
Dr. Eddie O'Brien *British Aerospace Airbus, U.K.*	Development and Application of Acoustic Emission for Civil Aircraft		212
Mr. Chris Rowland *Pancom, U.K.*	Feasibility Study on the Monitoring Ability of Acoustic Emission Technique on JSF Ball Race Structure	**Steve Church** - Rolls Royce	216
Mr. Rhys Pullin *Cardiff University of Wales, U.K.*	Acoustic Emission Studies of a Steel Box Girder Bridge	**Damian Carter, Dr. Karen Holford** - Cardiff University of Wales	225
Mr. Ian Ferguson *Heriot-Watt University, UK*	Condition Monitoring of Rotating Seals Using Acoustic Emission	**J.D. Gill, R.L. Reuben, J.A. Steel, E.R Brown** - Heriot-Watt University **E. Roosch** - Flowserve BV	230

DAY 3

Speaker/ Organisation	Title of Paper	Co-Author(s)/ Organisation	Page No.
Dr. Tinghu Yan *Cardiff University of Wales, U.K.*	Acoustic Emission Analysis Using Pattern Recognition Technique	**Dr. Karen Holford, Damian Carter** - Cardiff University of Wales	236
Dipl.-Ing. Volkmar Liebig *Fraunhofer Gesellschaft, Germany*	Absolute Calibration of Acoustic Emission (AE) Sensors with Laser Induced Surface Waves	**Niels Hoppe** - TU **Dresden Steffen Lohse**, FhG Dresden **Dr. Claudio Cavalloni, Dr. Andreas Kirchheim** - Kistler Instrumente **Dr. Eckhard Pridöhl** - FhG Dresden	240
Dipl.-Ing. Jochen Vallen *Vallen Systeme, Germany*	Frequency based Source Classification of AE signals	**G. Ruske** - Technische Universität München	249
Ing. Marta Korenska *Technical University of Brno, Czech Republik*	Threshold Sensitivity and Background Noise of Acoustic Emission Sensors	**Prof. J. Sikula, P. Vasina** - Technical University of Brno	255
Prof. Valeriy Ivanov *ORGENERGONEFT, Russia*	Calculations of the Acoustic Emission Energy	**I.E. Vlasov** - ORGENERGONEFT	259
Dr. Tinghu Yan *Cardiff University of Wales, U.K.*	A Self-Organisation Method for Classification of Acoustic Emission Signals	**Dr. Karen Holford, Damiam Carter** - Cardiff University of Wales	264
Dipl.-Phys. Jürgen Nuffer *Darmstadt University of Technology, Germany*	Microdamage in Ferroelectric Ceramics *		270
Mr. Tomas Lokajicek *Academy of Sciences, Czech Republik*	Options of determining the parameters of an acoustic emission source *	V. **Rudajev, J. Vilhelm** - Academy of Sciences, Czech Republik	271
Dr. Miroslav Priban *on behalf of ADA Akusticka 'Emise, Czech Republic*	Approximate relationship between parameters of AE event mechanism and selected parameters of detected AE signal	**Petr Hora** - UFY AVCR	272
Mr. Jiri Liska *Skoda JS, Czech Republic*	The Tools for Objective Evaluation of Emission Sources Detected during Acoustic Emission Test	**Martin Cvrcek** - Skoda JS	277
Mr. Phillip T. Cole *Physical Acoustics Ltd., U.K.*	Development of AE Systems for Touch Detection and Dressing Verification of Grinding Operations	**Dr. J.W. Dong, Dr. S.J. Vahaviolos, M.F. Carlos, Dr. R.K. Miller** - Physical Acoustics Corp.	281
Dipl.-Ing. Peter Tscheliesnig *TÜV Austria*	European Standardisation in CEN TC 138 WG 7	**Emilio Fontana** - CISE	287

** Full paper not available at time of printing*

Sommaire

2000

Studies of the non-linear dynamics of acoustic emission generated in rocks 1
by Z. Majewska, Z. Mortimer (Institute of Geophysics, University of Mining and Metallurgy - Poland)

Acoustic emission as result of tensil and shearing processes in stable and unstable fracturing of rocks 9
by J. Pininska (Warsaw University - Poland)

Relation between acoustic emission signals sequences induced by thermal loading and the structure of sedimentary rocks 15
by B. Zogala, R. Dubiel (University of Silesia - Poland)

Electromagnetic and Acoustic Emission from solids under Ramp increasing pressure 21
by J. Sikula, B. Koktavy, V. Sedlakova (Technical University - Czech Republic)

Acoustic emission/Acousto-Ultrasonic data fusion for damage evaluation in concrete 27
by A. Tsimogiannis, B. Georgali, A. Anastassopulos (Envirocoustics S.A. - Greece)

Concrete Crossbeam Diagnostic by acoustic emission method 33
by Z. Weber, P. Svadbik, M. Korenska (Technical University of Brno - Czech Republic)

Fluctuation of Ultrasonic Beam in Inhomogeneous Media 39
by S. Ahmed, R. Roberts, F. Margetan (Saint Louis University - USA)

Acoustic emission in PZT ceramics generated by electric fileds of high amplitude and low frequency 45
by M. Aleksiejuk, V. Busko, F.R. Rejmund (Institute of Fundamental Technological Research PAS - Poland)

Amplitude analysis in the assay of impacted composites damage tolerance 51
by F. Billi, C. Caneva, M. Valente (University of Rome « La Sapienza » - Italy)

A new acoustic parameter for the analysis of composite materials damages 57
by F. Lachaud (LGMT - France)

Waveform based analysis techniques for the reliable acoustic emission testing of composite structures 63
by M. Surgeon, C. Buelens, M. Wevers (Metalogic - Belgium)

Optical fibres for in situ monitoring the damage development in composites and the relation with acoustic emission measurements 69
by M. Wevers, L. Rippert, S. Van Huffel (Katholieke University Leuven - Belgium).

Lamb-wave source location of impact on anisotropic plates 77
by H. Yamada, Y. Mizutani, H. Nishino (UCLA - USA)

Characterisation of the damage and fracture mechanisms in $Ti_3 SiC_2$ using acoustic emission 85
by P.T. Cole, P. Finkel, R. Miller (Physical Acoustics Corp. - USA)

Crack microstructure and sources of acoustic emission in metals 91
by L. Rogers (Lloyd's Register of Shipping - United Kingdom)

Evaluation of martensitic transformation dynamics of Cu-Al-Ni shape memory alloy single crystals by acoustic emission method 107
by K. Yoshida, S. Kihara, K. Sakamaki (University of Tokushima - Japan)

The identification of basic fatigue parameters on electroresonance pulsator with help of acoustic emission technology 113
by P. Mazal, J. Petras (Brno University of Technology - Czech Republic)

The phase of contact damage and its description by help of acoustic emission 119
by Dvoracek, Pazdera, Petras (Brno University of Technology - Czech Republic)

Acoustic emission monitoring of delayed hydride cracking in Zirconium 125
by A. Barron, C. Rowland (Pancom - United Kingdom)

Examination of plate valve behaviour in a small reciprocating compressor using acoustic emission 133
by R.D. Douglas, Y.S. Neo, J.D. Gill (Heriot-Watt University - United Kingdom)

A new method of acoustic emission source location in Pipes using cylindrical guided waves 139
by H. Nishino, F. Uchida, S. Takashina (Aoyama Gakuin University - Japan)

Some approximate measurements of acoustic emission energy associated with dislocation motion in metal alloys 145
by E.R. Brown, R.L. Reuben and J.A. Steel

Acoustic emission method for pressure vessel diagnostics at a refinery 153
by V.L. Sokolov, B. Kabanov, V.P. Gomera (Kirishinefteorgsintez - Russia)

Optimisation of acquisition parameters for acoustic emission measurements on small pressure vessels 161
by F. Rauscher (Vienna University of Technology - Austria)

Monitoring of weld's defects evolution submit to static and dynamic loading thanks to the acoustic emission method 167
by C. Hervé, R. Pensec, A. Laksimi, (CETIM - France)

Acoustic emission due to cyclic pressurisation of vessels with partially penetrated longitudinal seams 175
by M. Bayray (Institute of pressure vessels and plant Technology - Austria)

Inspection of LPG vessels with AE examination 183
by P. Tscheliesnig, G. Schauritsch (TÜV Austria - Austria)

Inspection of pressure vessels used in refrigeration and air conditioning systems 189
by A. Skraber, F. Zhang, M. Cherfaoui (CETIM - France)

The new Russian standards in the field of acoustic emission 195
by V.I. Ivanov, I.E. Vlasov (Orgenergoneft - Russia)

The feasibility of using passive ultrasonic techniques for the analysis of active corrosion processes 201
by M. Surgeon, C. Buelens (Metalogic - Belgium)

Using acoustic emission to monitor metal dusting 209
by F. Ferrer, E. Andres, J. Goudiakas (Elf Atochem - France)

Use of acoustic emission to detect localised corrosion philosophy of industrial use, illustrated with real examples 215
by A. Proust, J.C. Lenain (Euro Physical Acoustics - France)

Inspection of flat bottomed storage tanks by acoustical methods. Classification of corrosion related signals 221
by M. Gori, P. Tscheliesnig, G. Lackner (CESI - Italy)

Screening of tank bottom corrosion with a single point AE detector : AE-simple 227
by P. J. Van De Loo, D.A. Kronemeijer (Shell Global Solutions - The Netherlands)

Case histories from ten years of testing storage tank floors using acoustic emission 233
by P.T. Cole, S.J. Schoorlemmer, S.N. Gautrey (Physical Acoustics Limited - United Kingdom)

Approach to the acoustic-emission diagnostics of main oil & gas pipeline systems 241
by V.M. Belov, M.N. Podlevskikh (Eltest Company - Russia)

Acoustic emission detection of damage in reinforced concrete conduit 247
by S. Vahaviolos, H.W. Shen, S. Iyer (Physical Acoustics Corp. - USA)

Comparison of artificial acoustic emission sources as calibration sources for tool wear monitoring in single-point machining 253
by A. Prateepasen, Y.H. Joe AU (Brunel University - United Kingdom)

Development of an equipment to monitoring and control the quality of resistance welding 261
by J. Catty and CRAFT Partners (CETIM - France)

Comparison of acoustic emission with sound waves generated in arc welding process 267
by I. Polajanr, L. Grad (Faculty of mechanical engineering - Slovenia)

Monitoring Aging structures with acoustic emission and Acousto-Ultrasonics 273
by R.D. Finlayson, P.T. Cole, J.C. Lenain (Physical Acoustics Corp. - USA)

A study of small HSDI Diesel engine fuel injection equipment faults using acoustic emission 281
by J.D. Gill, R.L. Reuben, J.A. Steel (Heriot-Watt University - United Kingdom)

Acoustic emission development @ Rolls Royce Plc U.K. 287
by S. Church (Rolls-Royce PLC - United Kingdom)

Unsupervised pattern recognition of acoustic emission from full scale testing of a wind turbine blade .. 291
by D. Kourousis, A. Anastassopoulos, P. Vionis (Envirocoustics S.A. - Greece)

Acoustic emission proof testing of insulated aerial man lift devices 299
by A. Anastassopoulos, A. Tsimogianis, D. Kourousis (Envirocoustics S.A. - Greece)

BOXMAP - Non-invasive detection of cracks in steel box girders 305
by J.R. Watson, P.T. Cole, K.M. Holford (Physical Acoustics Ltd - United Kingdom)

Monitoring failure mechanisms in CFRP orthopaedic implants during fatigue testing 313
by A. Taylor, C. Rowland, P. Gregson (Pancom - United Kingdom)

Continuous monitoring of rock failure by a remote AE system 321
by T. Shiotani, S. Yuyama, M. Carlos (Research Institute of Technology, Tobishima Corp. - Japan)

Reciprocity calibration of acoustic emission transducers 327
by H. Hatano (Science University of Tokyo - Japan)

Influence of mounting between acoustic emission sensor and tested surface 333
by M. Korenska, L. Pazdera, L. Ritickova (Technical University of Brno - Czech Republic)

New AE signal conditionner for Industrial use 339
by H. Vallen, J. Von Stebut, J. Forker (Vallen Systeme GmbH - Germany)

New software tools for the AE-Practitioner 347
by H. Vallen, J. Vallen (Vallen Systeme GmbH - Germany)

Improved source location methods for pressure vessels 355
by S. Vahaviolos, V. Godinez, R.D. Finlayson (Physical Acoustics Corp. - USA)

Neural Network localization of noisy AE events in dispersive media 363
by M. Blahacek, Z. Prevorovsky, J. Krofta (Institute of Thermomechanics AS CR - Czech Republic)

Waveform analysis of simulated transient signals 369
by S. Vahaviolos, H.W. Shen, R.D. Finlayson (Physical Acoustics Corp. - USA)

Waveform analysis of acoustic emission on thin composites structures 375
by M. El Moudni, S. Benmedakhene, A. Laksimi (UTC - France)

Development of a moment tensor analysis system for quantitative waveform analysis of AE 381
by S. Yuyama, M. Ohtsu, M.F. Carlos (Nippon Physical Acoustics Ltd - Japan)

The diagnostic of cutting tool wear 387
by V. Poppeova (University of Zilina - Slovakia)

Dynamics and damage assessment in impacted cross-ply CFRP plate utilizing the wavaform simulation of lamb wave acoustic emission 395
by Y. Mizutami, H. Nishino, M. Takemoto (Faculty of Science and Engineering - Japan)

Acoustic emission detection during stress corrosion cracking at elevated pressure and temperature 403
by, Van Nieuwenhove, R.W. Bosch (Centre d'Etude de l'Energie nucléaire - Belgium)

Detection of pitting corrosion of aluminium alloys by acoustic emission technique 409
by H. Idrissi, J. Derenne, H. Mazille (Laboratoire de Physico-chimie Industrielle - France)

Reliability of acoustic emission technique to assess corrosion of reinforced concrete 417
by H. Idrissi, A. Limam (Laboratoire de Physico-chimie Industrielle - France)

The evaluation of the influence of metrological and constructural parameters on the acoustic emission generated by partial discharges 425
by T. Boczar (Technical University of Opole - Poland)

The analysis of the possible use of the descriptors determined in the time and frequency domains for the characteristics of acoustic emission signals from partial discharges 433
by T. Boczar (Technical University of Opole - Poland)

Determining the influence of mechano-electrical coupling of measuring transducers used in acoustic emission from partial discharges on the values of the registered descriptors 439
L. Marcin (Technical University of Opole - Poland)

Applied of acoustic emission during high temperature oxidation under stress of nickel 445
L. Gaillet, S. Benmedakhene, A. Laksimi, G. Moulin (Université de Techn. de Compiègne - France)

CONTENTS
- Volume I -

Contributions can be found in alphabetical order according to the surname of the first author.

Akematsu Y., Yoshida K., Sakamaki K., Horikawa K.
Characteristics of AE waveform during gas leak from a pipe **I/15**

Anastassopoulos A.A., Kouroussis D.A., Nikolaidis V.N., Proust A., Dutton A.G., Blanch M.J., Jones L.E., Vionis P., Lekou D.J., van Delft D.R.V, Joosse P.A., Philippidis T.P., Kossivas T., Fernando G.
Structural integrity evaluation of wind turbine blades using pattern recognition analysis on acoustic emission data **I/21**

Anastassopoulos A.A., Tsimogiannis A.N., Kouroussis D.A.
Pressure vessel evaluation with pattern recognition acoustic emission data analysis **I/29**

Bayray M., Rauscher F.
Window Fourier Transform and Wavelet Transform in AE signal analysis **I/37**

Belov V., Glushko A., Kozyrev O
New AE source location method and its practical application **I/45**

Beneš P.
Process analysis on heat transfer surface **I/51**

Bláha J.
Real source detection during continuous monitoring of pressure vessels **I/59**

Blaháček M., Převorovský Z.
Probabilistic definition of AE events **I/63**

Boczar T.
Comparison of the results of the frequency analysis of electric signals and AE generated by partial discharges **I/69**

Boczar T.
Determining identification possibilities of multisource partial discharges based on frequency analysis of their AE **I/77**

Bordei M., Dragan V., Dragulin I., Goanta M.A., Constantinescu S.
Researches regarding the role of the ultrasonic control at the fabrication of the guidance rolls curved thread at the continuous casting machines **I/85**

Bradshaw T., Holford K., Cole P., Davies A.
Ball bearing calibration of concrete structures using AE **I/91**

Černý L., Jirsík V.
Signal source location by means of neural networks **I/99**

Chlada M., Převorovský Z.
Threshold counting in wavelet domain **I/107**

Chmelík F., Máthis K., Lukáč P., Langdon T.G.
Investigating magnesium alloys and composites using the AE technique **I/117**

Cole P.T., Gautrey S.N., Lenain J.C.
On-stream monitoring of process plant by AE **I/125**

Colombo S., Main I.G., Forde M.C., Halliday J.
AE on bridges: experiments on concrete beams **I/127**

Constantinescu S., Drugescu E., Dragan V., Radu T., Bordei M., Buburuzan L.
Practical application of AE of the different grades of steel **I/135**

EWGAE 2002

25th European Conference on Acoustic Emission Testing
Prague, Czech Republic, 11 – 13 September 2002

Crha J. , Hahn J., Brom J.
Leak monitoring by AE method I/141

Derjagin B.V., Lipson A.G., Kluev V.A., Toporov Yu.P., Sodomka L.
Mechanoemission of neutron from deuterated materials I/149

Dragan V., Bordei M., Constantinescu S., Tudor B.
Researches regarding the quantitative analysis of the heavy rolling plates of LRS-EH36 steel type, through ultrasonic control I/155

Drummond G.R., Fraser K.F., Little J., Watson J.F., Campbell P.
Assessing the structural integrity of crane booms using AE I/161

Ennaceur C., Benmedakhene S., Laksimi A., Hervé C., Mediouni M., Cherfaoui M.
Study of mechanical behaviour of 304L steel using AE technique and the method of potential difference I/173

Ferrer F., Radigon E.
Using AE in the objective to evidence corrosion rate evolutions during chemical process in service modifications I/185

Fraser K., Drummond G., Little J., Fleisher S., Bailey J., Brown M.
Investigation utilising AE into cracking of stainless steel aircraft tie down link plates I/191

Gaillet L., Brevet P., Robert J.L., Tessier C.
Acoustic monitoring of prestressed concrete bridge and other civil structures with cables I/201

Golaski L., Gebski P., Ono K.
Diagnostics of reinforced concrete structures by AE I/207

Goujon L., Baboux J.C., Zhang F.
Reciprocity calibration of AE transducers I/217

Hájek K., Šikula J., Tacano M., Hashiguchi S.
Signal to noise ratio and preamplifier noise of AE measuring systems I/223

Hatscher A., Chmelík F., Lukáč P., Zenner H.
Cyclic deformation of a magnesium based light alloy investigated by the AE technique I/229

Holford K.M., Pullin R., Davies A.W.
An investigation into location of damage in bridge details by AE I/237

Horikawa K., Yoshida K., Sakamaki K.
AE due to the intergranular fracture of Al-Mg-Si base alloys I/239

Hünicke U.D., Schulz M., Budzier R., Eberlein J.
Characterization of stress corrosion cracking of CuZn-alloys by AE testing I/247

Kabanov B.S., Gomera V.P., Sokolov V.L., Okhotnikov A.A., Fedorov V.P.
AE technology as a key element of the safe operation system at refinery I/253

Kořenská Ma., Pazdera L., Smutný J., Kořenská Mo.
Detection of defects in hourdis sandwitch slabs by means of AE method I/263

Krofta J., Převorovský Z., Raab M.
AE during structure changes in semi-crystalline polymers I/269

Kuravsky L.S., Baranov S.N.
Condition monitoring of thin-walled structures suffered high-level acoustic excitation I/277

Lackner G., Tscheliesnig P.
AE testing on flat bottomed storage tanks: how to condense acquired data to a reliable statement regarding floor condition **I/279**

Lamark T.T., Chmelík F., Estrin Y., Lukáč P.
Plastic deformation of a magnesium based light alloy investigated by the AE technique .. **I/287**

Landa M., Novák V., Blaháček M., Šittner P.
Investigation of transformation processes in shape memory alloys based on monitoring AE activity **I/293**

Landa M., Wevers M.
AE during constant loading or constant deformation tests of AISI 304 stainless steel in 5N H_2SO_4 + 0,1M NaCl **I/301**

Lavrov A., Wevers M., Vervoort A.
AE during monotonic and cyclic deformation of a brittle limestone **I/307**

Little J., Drummond G.R., Fraser K.F., Bentley J.A., Jihan S., Siddiqui A.M.
Lifespan prediction for composite cylinders using AE techniques **I/315**

Lectures

The KAISER-EFFECT and its Scientific Background 31
H.M. Tensi, TU München, Metallurgie und Metallkunde, München (GER)

A Start Session

1 Acoustic Emission Measurement System for the Orthopedical Diagnostics of the Human Femur and Knee Joint 43
R.P. Franke, University of Ulm, Dept. of Biomaterials, Ulm (GER); P. Dörner, Bad Griesbach (GER); H.-J. Schwalbe, B. Ziegler, University of Applied Science Gießen, Gießen (GER)

2 Corrosion Testing of Ship Building Materials with Acoustic Emission (AE) 51
P. Tscheliesnig, TÜV Austria, Vienna (A)

3 An investigation into the comparison of maintenance strategies past, present and future by enhancing periodic proof testing with Acoustic Emission to generate reliable through life structural integrity assurance 61
G.R. Drummond, Imes, Aberdeen (UK); J.F. Watson, The Robert Gordon University, Aberdeen, Scotland (UK)

A1 Pressure Equipment

4 Acoustic Emission Experience with AE Monitoring of New Vessels during Initial Proof-Test 75
P. Cole, S. Gautrey, Physical Acoustics Ltd., Cambridge (UK)

5 Defect Detection by Acoustic Emission Examination of Metallic Pressure Vessels 83
F. Rauscher, Vienna University of Technology, Vienna (A)

6 Experience of Acoustic Emission Method Application at Equipment Diagnostics 91
E. Nefedjev, A. Sudakov, Central Boiler and Turbine Institute (CKTI), Saint-Petersburg (RUS)

B1 Acoustic Emission from Concrete

7 Quantitative Damage Estimation of Concrete Core based on AE Rate Process Analysis 99
M. Ohtsu, Kumamoto University, Kumamoto (J); T. Suzuki, Nippon Suiko Consultants Co., Kumamoto (J)

8 Acoustic Emission for Monitoring Damage Accumulation in Reinforced Concrete Structures 107
B. Schechinger, T. Vogel, Institute of Structural Engineering, ETH Zurich, Zurich (Switzerland)

9 Acoustic Emission Monitoring of the Fracture Behaviour of Concrete containing various size and shape of glass aggregates 115
A.M. Siddiqui, A.H. Choudhury, I.J. Merchant, The Robert Gordon University, School of Engineering, Aberdeen, Scotland (UK)

A2 Pressure Equipment / Medical and Biological Applications

10 Use of AE Method Abilities for Petrochemical Equipment Inspection 131
B.S. Kabanov, V.P. Gomera, V.L. Sokolov, V.P. Fedorov, A.A. Okhotnikov, Kirishinefteorgsintez, Kirishi (RUS)

11 In-Service Inspection of Spherical Tank using AE in Wave Guide Configuration 139
J. Catty, M. Mediouni, J. Menetrier, CETIM, Paris (F)
abstract

12 Acoustic emission of transpiring plants - new results and conclusions **141**
R. Laschimke, M. Burger, FH Sigmaringen-Albstadt, Albstadt (GER); H. Vallen, Vallen-Systeme, Icking (GER)

13 Ultrasound acoustic detection of cavitation events in water conducting elements of Norway spruce wood **149**
S. Rosner, University of Natural Resources and Applied Life Sciences – BOKU, Institute of Wood Science and Technology, Vienna (A); S.B. Kikuta, University of Natural Resources and Applied Life Sciences – BOKU, Institute of Botany, Vienna (A)

B2 Acoustic Emission from Rock

14 AE Kaiser Effect and Electromagnetic Emission in the Deformation of Rock Sample **157**
Y. Mori, Y. Obata, Nihon University, College of Industrial Technology, Chiba (J); J. Pavelka, J. Sikula, Brno University of Technology, Czech Noise Research Laboratory, Brno (CZ); T. Lokajicek, Academy of Sciences, Institute of Rock Structure and Mechanics, Prague (CZ)

15 Characterisation of Acoustic Emission Sources in a Rock Salt Specimen under Triaxial Load **167**
G. Manthei, Gesellschaft für Materialprüfung und Geophysik, Ober-Mörlen (GER)

16 Possibilities of forecasting of rock sample total fracture by application of correlation analysis of acoustic emission events series **183**
J. Vilhelm, Charles University, Prague (CZ); T. Lokajicek, V. Rudajev, Academy of Sciences, Institute of Rock Structure and Mechanics, Prague (CZ)

17 Correlation analysis of ultrasound emission foci in loaded granites and migmatities **191**
J. Veverka, V. Rudajev, T. Lokajicek, Academy of Sciences, Institute of Rock Structure and Mechanics, Prague (CZ)

A3 Tanks, Civil Structures

18 Field Testing of flat bottomed Storage Tanks with Acoustic Emission - A Review on the gained Experience **201**
G. Lackner, P. Tscheliesnig, TÜV Austria, Vienna (A)

19 Acoustic Emission Monitoring of Concrete Hinge Joint Models **211**
K.M. Holford, R. Pullin, R.J. Lark, Cardiff University, School of Engineering, Cardiff (UK)

20 Localization of Noise Sources in Large Structures using AE **219**
D.W. Prine, Northwestern University ITI, Evanston, IL (USA)

21 Damage Assessment in Railway Sub-Structures deteriorated using AE Technique **225**
T. Shiotani, Y. Nakanishi, Tobishima Corporation, Research Institute of Technology, Chiba (J); X. Luo, H. Haya, Railway Technical Research Institute, Tokyo (J)

B3 Acoustic Emission from other Materials

22 Phase Transition Studies in PZT Ceramics using Acoustic Emission **233**
K. Prabakar, A. Dode, Osmania University, University College of Science, Hyderabad (India); S. Manjunath Rao, S.P. Mallikarjun Rao, University of Hyderabad, Central Instrumentation Center, Hyderabad (India)

23 Acoustic Emission Behavior of Martensitic Transformation in Early Stage during Deformation of Cu-Al-Ni Shape Memory Alloy Single Crystals **249**
K. Yoshida, K. Hanabusa, T. Nagamachi, Tokushima University, Dept. of Mechanical Engineering, Tokushima (J)

24 Testing of Diamond-Like Carbon Coatings under Slip-Rolling Friction Monitored by Acoustic Emission **257**
M. Löhr, Federal Institute for Materials Research and Testing (BAM), Berlin (GER)

25 AE Monitoring from CVD-Diamond Film subjected to Micro-Indentation and Pulse Laser Spallation **273**
R. Ikeda, Asahi Diamond Industrial Co. Ltd., Chiba (J); H. Cho, M. Takemoto, Aoyama Gakuin University, Kanagawa (J); K. Ono, UCLA, University of California, Los Angeles, CA (USA)

A4 Other Industrial Applications

26 Acoustic Emission of Fatigue-Deformed Aluminum Alloys for Automotive Panels **281**
K. Horikawa, H. Kobayashi, Osaka University, Dept. of Mechanical Science and Bioengineering, Osaka (J); Y. Takeuchi, K. Yoshida, The University of Tokushima, Dept. of Mechanical Engineering, Tokushima (J)

27 Detection of fatigue crack growth in aircraft landing gear **289**
M.G. Baxter, R. Pullin, K.M. Holford, Cardiff University, School of Engineering, Cardiff (UK)

28 Condition monitoring using of AE method **297**
R. Murray, V. Svoboda, P. Svec, Preditest, Prague (CZ)

29 Cracks Detection on Metal Parts by Acoustic Emission **303**
C. Delalande, O. Renckert, V. Zarife, Hutchinson-Paulstra, Chalette sur Loing Loiret (F)

30 Investigation into Identification of Faults in a small HSDI Diesel Engine using Acoustic Emission **311**
A.K. Frances, J.D. Gill, Imes Ltd., Aberdeen (UK); R.L. Reuben, J.A. Steel, Heriot-Watt University, Edinburgh (UK)

B4 Acoustic Emission from Leak / Composites 1

31 Frequency Characteristics of Acoustic Emission Waveforms during Gas Leack **321**
K. Yoshida, H. Kawano, Y. Akematsu, H. Nishino, Tokushima University, Dept. of Mechanical Engineering, Tokushima (J)

32 Differentiation of Micro-Failures in Glass Polypropylene Composites by Means of Acoustic Emissions Technologies **329**
C. Ramirez-Jimenez, M. Pharaoh, N. Papadakis, N. Reynolds, University of Warwick, Coventry (UK)

33 Damage Analysis of Polymer Matrix Composites by Acoustic Emission Testing **339**
J. Bohse, Federal Institute for Materials Research and Testing (BAM), Berlin (GER)

34 Acoustic Emission Technique to assist the Formula One Designer in Structural Design **349**
C. Rowland, Pancom, Hantingdon (UK); L. Butler, M. Preston, Arrows F1, Leafield (UK)

35 Acoustic Emission Monitoring of Buckling Behaviour in Impact-Damaged Composite Plates **361**
K.M. Holford, C.A. Featherston, R. Pullin, M.J. Eaton, Cardiff University, School of Engineering, Cardiff (UK)

A5 Process Monitoring / Rotating Machineries

36 AE Signals from Process Monitoring **369**
P. Cole, T. Bradshaw, Physical Acoustics, Cambridge (UK)

37 Monitoring of Gas Turbine Operating Parameters using Acoustic Emission **389**
R.M. Douglas, S. Beugné, M.D. Jenkins, J.A. Steel, R.L. Reuben, P.A. Kew, Heriot-Watt University, School of Engineering and Physical Sciences, Edinburgh (UK); A.K. Frances, Imes Ltd., Aberdeen (UK)

38 The use of Acoustic Emission for bearing defect identification and estimation of defect size **397**
A.M. Al-Ghamdi, D. Zhechkov, D. Mba, Cranfield University, School of Engineering, Cranfield, Bedfordshire (UK)

39 Detection of incipient cavitation and the best efficiency point of a 2.2MW centrifugal pump using Acoustic Emission 407
L. Alfayez, Saudi Aramco Oil, Consulting Service Dept., Dhahran (Saudi-Arabia); D. Mba, Cranfield University, School of Mechanical Engineering, Cranfield, Bedfordshire (UK); G. Dyson, David Browne Textron, Penistone Sheffield (UK)

40 Semi-Real Time Classification of Acoustic Emission Signals for Drive System Coupling Crack Detection 415
V. Godinez, F. Shu, R. Finlayson, Physical Acoustics Corp., Lawrenceville, NJ (USA); A. Anastasopoulos, A. Tsimogiannis, Envirocoustics S.A., Athens (Greece); B. O´Donnell, Naval Air Warfare Center, Patuxent River, MD (USA)

B5 Acoustic Emission from Composites 2

41 Acoustic Emission applied to mechanically loaded Paper 423
D. Graham, D. Kao, B. Knight, University of Greenwich, School of Computing and Mathematical Sciences, Greenwich, London (UK); P.A. Gradin, P. Isaksson, S. Nyström, Mid Sweden University, Sundsvall (S)

42 On the application of wavelet transform of AE signals from composite materials 433
T.H. Loutas, G. Sotiriades, V. Kostopoulos, Dept. of Mechanical and Engineering and Aeronautics, University of Patras and Institute of Chemical Engineering and High Temperature Processes, Patras (Greece)

43 Acoustic Emission Characteristics of Pultruded Fiber Reinforced Plastics under Uniaxial Tensile Stress 447
N. Ativitavas, PTT Public Company Ltd., Bangkok (Thailand); T. Fowler, The University of Texas, Austin, TX (USA); T. Pothisiri, Chulalongkorn University, Bangkok (Thailand)

44 Acoustic emission studies on fracture behaviour of CFC-materials under various loads 455
P. Majerus, T. Hirai, J. Linke, Forschungszentrum Jülich, EURATOM-Association, Jülich (GER); J. Compan, Université Pierre at Marie Curie, Paris (F); R. May, Fraunhofer Institute for Nondestructive Testing (IZFP) Dresden, Dresden (GER)

45 Dynamic Health Monitoring of Metal on Metal Hip Protheses using Acoustic Emission 465
C. Rowland, M. Browne, University of Southampton, Bioengineering Science Research group, SES, Southampton (UK); A. Taylor, Finsbury Orthopaedics, Leatherhead (UK)

A6 Acoustic Emission from Gears / Wave Guide

46 The source of Acoustic Emission during meshing of spur gears 469
C.K. Tan, D. Mba, Cranfield University, School of Engineering, Cranfield, Bedfordshire (UK)

47 Identifying seeded defects in gearboxes with Acoustic Emission ; Limitations 475
D. Mba, C.K. Tan, Cranfield University, School of Engineering, Cranfield, Bedfordshire (UK)

48 The Effect of Waveguide Material and Shape on AE Transmission Characteristics 485
J. Sikorska, J. Pan, University of Western Australia, Perth (Australia)

49 Rods and Tubes as AE Waveguide 495
K. Ono, UCLA, University of California, Los Angeles, CA (USA); H. Cho, Aoyama Gakuin University, Kanagawa (J)

B6 Acoustic Emission from Corrosion

50 Acoustic Emission from Rust in Stress Corrosion Cracking 503
H. Cho, M. Takemoto, Aoyama Gakuin University, Kanagawa (J)

51 Acoustic Emission during Stress Corrosion Cracking Tests 511
M. Takemoto, H. Cho, Aoyama Gakuin University, Kanagawa (J); K. Ono, UCLA, University of California, Los Angeles, CA (USA)

52 A comparative study of Corrosion in an Aluminium alloy and mild steel using acoustic emission and microscopic techniques **519**
A.M. Siddiqui, A. Abdu, A. Mahen, A.H. Choudhury, The Robert Gordon University, School of Engineering, Aberdeen (UK)

53 Acoustic Emission during Hydrogen Charging of Alloys **541**
K. Trapl, P. Sajdl, Institute of Chemical Technology, Dept. of Power Engineering, Prague (CZ)

A7 New Sensors / other Testobjects

54 Active Fiber Composites for Application as Acoustic Emission Sensors: Principles and Characterization **549**
A.J. Brunner, M. Barbezat, P. Flüeler, X. Kornmann*, C. Huber, Swiss Federal Laboratories for Materials Testing and Research, EMPA, Dübendorf (Switzerland)
* current affiliation: ABB Schweiz, Corporate Research, Baden-Dättwil (Switzerland)

55 Steel Plate Coupled Behavior of MEMS Transducers Developed for Acoustic Emission Testing **557**
D. Ozevin, S. Pessiki, Lehigh University, Dept. of Civil Engineering, Bethlehem, PA (USA); D.W. Greve, Carnegie Mellon University, Dept. of Electrical and Computer Engineering, Pittsburgh, PA (USA); I.J. Oppenheim, Carnegie Mellon University, Dept. of Civil and Environmental Engineering, Pittsburgh, PA (USA)

56 Optical Fibre Sensor for Damage Monitoring in Composite Laminate **565**
R. de Oliveira[1,2], O. Frazao[3], J.L. Santos[3,4], A.Torres Marques[2],
[1]Le Mans University (F), [2]Dept. of Mechanics, Porto University, Porto (Portugal); [3]Optoelectronic and Electronic Systems Unit, Porto (Portugal); [4]Physics Dept., Porto University, Porto (Portugal)
abstract

57 Acoustic Emission to assess the Structural Condition of Bronze Statues. Case of the "Nike" of Brescia **567**
C. Caneva, A. Pampallona, S. Viskovic, University of Rome “La Sapienza”, Dept. of Chemical and Material Engineering, Rome (Italy)

B7 Other Advanced Analysis Methods

58 Basic principles of acoustic emission tomography **575**
F. Schubert, Fraunhofer Institute for Nondestructive Testing (IZFP) Dresden, Dresden (GER)

59 Acoustic emission for on-line monitoring of damage in various application fields **587**
M. Wevers, G. Van Dijck, W. Desadeleer, Katholike Universiteit Leuven, Dept. of Materials Engineering, Leuven (Belgium); M. Winkelmans, BASF, Ludwigshafen (GER); K. Van Den Abeele, Katholike University of Leuven, Subfaculty of Sciences, Kortrijk (Belgium)

60 Acoustic Emission Technique and Potential Difference Method for Detecting the Different Stages of Crack Propagation in Carbon and Stainless Steel **597**
C. Ennaceur, A. Laksimi, Laboratoire Roberval unité Mixte 6066 CNRS, Compiègne (F); C. Herve, M. Mediouni, M. Cherfaoui, CETIM, Dept. controles et essais industriels, Senlis (F)

61 Influence of the Weak Mechanical Disturbances on the Fracture Nucleation Behavior According AE Measurement **605**
V. Kuksenko, N. Tomilin, A.F. Ioffe Physico-Technical Institute, St. Petersburg (RUS); S. Elizarov, Interunis Ltd., Moscow (RUS); X.-C. Yin, CAS, Institute of Mechanics, Beijing (China)

A8 Wave Propagation and Location

62 Electronic Noise Effects on Fundamental Lamb-Mode Acoustic Emission Signal Arrival Times Determined using Wavelet Transform Results **613**
M.A. Hamstad, University of Denver, Denver, CO (USA)

63 Advanced Real Time Source Location Applications 623
H. Schoorlemmer, Physical Acoustics, Rotterdam (The Netherlands)

64 Investigation of fracture processes using moment tensor inversion technique 629
F. Finck, C.U. Große, H.-W. Reinhardt, University of Stuttgart, Institute of Construction Materials, Stuttgart (GER)

65 Source Identification using Acoustic Emission on Large Bore Cylinder Liners 637
A.I.F. Robertson, R.M. Douglas, P. Nivesrangsan, E.R. Brown, J.A. Steel, R.L. Reuben, Heriot-Watt University, School of Engineering and Physical Sciences, Edinburgh (UK)

66 Processing of Acoustic Emission Signals in dispersive Media 645
M. Blahacek, Z. Prevorovsky, M. Landa, Institute of Thermomechanics AS CR, Prague (CZ)

B8 Data Management / Vendor Applications

67 Using a Data Base Tool for the efficient Administration of AE-Data 655
H. Vallen, J. Vallen, J. Forker, G. Corneanu, Vallen-Systeme, Icking (GER)

68 Overview of new Acoustic Emission (AT) Systems, PAC-Developments 661
J. Sell, Physical Acoustics-D, Wolfegg (GER)

69 Evaluation of Acoustic Emission Signals during Monitoring of Thick-Wall Vessels Operating at Elevated Temperatures 667
A. Anastasopoulos, A. Tsimogiannis, S.A. Envirocoustics, Athens (Greece)

70 Acoustic Emission (AE) Loose Parts Monitoring Application in a Nuclear Power Plant 675
J.-C. Lenain, Euro Physical Acoustics, Paris (F); M.F. Carlos, Physical Acoustics Corporation, Princeton, NJ (USA); S. Vahaviolos, MISTRAS Holdings Group, Princeton, NJ (USA)

71 About the Experience of our Acoustic Emission Equipment Application in Various Industries 679
V. Belov, A. Glushko, M. Podlevskikh, O. Tarutin, Eltest Inc., Moscow (RUS)

A9 Calibration of Sensors, Equipment

72 Towards traceable calibration of acoustic emission measurement systems: development of a reference source at the UK's National Physical Laboratory 683
P.D. Theobald, National Physical Laboratory, Teddington, Middlesex (UK)

73 Monitoring techniques based on wireless AE sensors for large structures in civil engineering 691
C.U. Große, F. Finck, J.H. Kurz, H.-W. Reinhardt, University of Stuttgart, Institute of Construction Materials, Stuttgart (GER)

74 Development of a hybrid finite element/finite integration model for the UK's National Physical Laboratory acoustic emission reference facility 699
P.N. Gélat, P.D. Theobald, National Physical Laboratory, Teddington, Middlesex (UK); F. Schubert, Fraunhofer Institute for Nondestructive Testing (IZFP) Dresden, Dresden (GER)

75 Possibilities and Limits of an automated AE-Channel-Verification Process 709
H. Vallen, J. Vallen, J. Forker, G. Corneanu, Vallen-Systeme, Icking (GER)

Additional Papers (Reserves)

R1 Stress transmission in compressed granular materials evaluated by acoustic emission techniques 719
C.U. Große, F. Finck, University of Stuttgart, Institute of Construction Materials, Stuttgart (GER); R. Cruz Hidalgo, University of Stuttgart, Institute for Computational Physics, Stuttgart (GER)

R2 Tribomechanical and anisotropic properties of area textiles **725**
L. Sodomka, Technical University, Textile Faculty, Clothing Dept., Liberec (CZ)

R3 Welding inspection with on-line acoustic emission monitoring **735**
T.H. Loutas, G. Sotiriades, J. Kalaitzoglou, V. Kostopoulos, University of Patras, Patras (Greece)
abstract

R4 Monitoring of Centrifugal Cast Rolls using Acoustic Emission **737**
J. Crha, AE Consultant, Ostrava (CZ); J. Jelinek, Vitkovicke Slevarny, Ostrave (CZ); F. Havlicek, VSB Technical University, Ostrava (CZ)

Poster

P1 Wavelet Processing of Acoustic Emission Signals from Scratch Tests on Nitride Coatings **745**
R. Piotrkowski, Universidad Nacional de San Martin, Escuela de Ciencia y Tecnología, San Martin (Argentina); A. Gallego, Universidad de Granada, Dpto. Física Aplicada, E.U. de Arquitectura Técnica, Granada (Spain); J.E. Ruzzante, U.A. ENDE, Comisión Nacional de Energía Atómica, Buenos Aires (Argentina); M.T. Garcia-Hernandez, Universidad de Jaén, Dpto. de Física, Escuela, Politécnica Superior, Jaén (Spain)

P2 Acoustic Emission during the Scratch-Test on galvanized Steel **753**
R. Piotrkowski, Universidad Nacional de San Martin, Escuela de Ciencia y Tecnología, San Martin (Argentina); A. Gallego, Universidad de Granada, Dpto. Física Aplicada, E.U. de Arquitectura Técnica, Granada (Spain); J.F. Gil, J.d.M. Vico, J.L. Piqueras, J. Rodríguez, Universidad de Granada, Dpto. Construcciones Arquitectónicas, E.U. de Arquitectura Técnica, Granada (Spain); J.E. Ruzzante, U.A. ENDE, Comisión Nacional de Energía Atómica, Buenos Aires (Argentina)

P3 Comparison between Concrete-Black Steel and Concrete-Galvanized Steel Bond via the Pull-Out Test supplied with Acoustic Emission **761**
A. Gallego, Universidad de Granada, Dpto. Física Aplicada, E.U. de Arquitectura Técnica, Granada (Spain); V. Jiménez, J.F. Gil, J.L Piqueras, J. de Mata Vico, J. Rodríguez, Universidad de Granada, Dpto. Construcciones Arquitectónicas, E.U. de Arquitectura Técnica, Granada (Spain)

P4 Similarity matrices as a new feature for acoustic emission analysis of concrete **769**
J.H. Kurz, F. Finck, C.U. Große, H.-W. Reinhardt, University of Stuttgart, Institute for Construction Materials, Stuttgart (GER)

P5 Acoustic Emission Method as a Diagnostic Tool for Corrosion Cracking in Reinforced Concrete Beams **777**
M. Korenska, L. Pazdera, M. Manyochova, Brno UT, Faculty of Civil Engineering, Dept. of Physics, Brno (CZ); K. Pospisil, Transport Research Center, Brno (CZ)

P6 Application of acoustical emission as a new effective diagnostic tool in the in textile fields **783**
L. Sodomka, Technical University, Textile Faculty, Clothing Dept., Liberec (CZ)

P7 Area Textile Anisotropy Estimated also using Acoustic Emission **791**
L. Sodomka, Technical University, Textile Faculty, Clothing Dept., Liberec (CZ)

P8 The Evaluation of Fatigue Crack Propagation by Acoustic Emission **801**
J.-S. Hyun, G.-W. Song, B.-S. Kim, S.-M. Park, Korea Electric Power Research Institute, Deajon (Korea)

P9 Application of advanced AE signal treatment in the area of mechanical cyclic loading **809**
P. Mazal, L. Pazdera, J. Smutný, Brno University of Technology, Brno (CZ)

P10 Advanced Acoustic Emission Analysis of Rock Fracture **817**
S. Stanchits, G. Dresen, GeoForschungsZentrum Potsdam, Potsdam (GER)
abstract

P11 Characterization of adhesive joints between steel and fiber-reinforced polymers **819**
H. Kühnicke, Fraunhofer Institute for Nondestructive Testing (IZFP) Dresden, Dresden (GER)

P12 In-situ investigation of excavation disturbed zones close to drives in salt mines **825**
H. Kühnicke, F. Schubert, E. Schulze, Fraunhofer Institute for Nondestructive Testing (IZFP) Dresden, Dresden (GER)

P13 Optimization of the AE behaviour of transformation induced plasticity (TRIP) steels **833**
H. Kühnicke, U. Waag, Fraunhofer Institute for Nondestructive Testing (IZFP) Dresden, Dresden (GER)

P14 Acoustic Emission Assessment of Non Visible Defects on Multistrand Cable **839**
L. Gaillet, C. Tessier, D. Bruhat, R. Michel, Laboratoire Central des Ponts et Chaussées, Nantes (F)

P15 The Test of Acoustic Emission effects during Stress Corrosion Cracking of Copper Alloy used for Marine Screw Propellers **847**
M. Smajdor, H. Buglacki, Gdansk University of Technology, Gdansk (Poland)
abstract

P16 Acoustic Emission Analysis for the Evaluation of the SCC-Process of Brass **849**
U.-D. Hünicke, M. Schulz, University of Rostock, Rostock (GER)

P17 Methods for Investigating Austenite Stability during Tribological Stressing of FeCrNi Alloys **855**
K. Aßmus, W. Hübner, Federal Institute for Materials Research and Testing (BAM), Berlin (GER)
abstract

P18 Acoustic Emission Model for Determination of Delamination Stages in bimetallic Compositions **857**
V. Skalsky, O. Andreykiv, O. Serhiyenko, Karpeko Physico-Mechanical Institute of NASU, Lviv (Ukraine)
abstract

P19 Application of Wavelet Analysis to Acoustic Emission Pulses Generated by Electrical Discharges in Air **859**
T. Boczar, Technical University of Opole, Opole (Poland)

P20 Magneto-acoustic emission in wide ribbons of Metglas 2605SC and in steel bars **867**
R.J. López, Universidad di Cantabria, Dept. of Physics, Santander (Spain)

P21 Application of Frequency Inspection to Comparison Frost Resistance of Fired Roofing Tiles Manufactured Using Old and New Technolgy **875**
M. Korenská, Z. Chobola, P. Mikulková, J. Martinek, I. Plsková, Brno University of Technology, Faculty of Civil Engineering, Physics Dept., Brno (CZ)

P22 The Acoustic Emission Technique Applied to Test Pipes of GFRP Destinated to Transport Chemicals **881**
A. Valea, I. Mondragón, J. Martinez, M.L. González, Universidad del País Vasco, Dpto. Ingeniería Química y del Medio Ambiente, Bilbao (Spain)

P23 Investigation of the failure development in CFRP **889**
E. Schmachtenberg, E. Kuhnel, Institute for Plastics Processing (IKV), Aachen (GER)

P24 Physical Model of Electromagnetic Emission in Solids **899**
P. Koktavy, J. Sikula, Brno University of Technolgy, Brno (CZ)

Table of Contents

Committee Details v
Preface vii

Keynote Paper

Me and AE -The Early Years 1962 – 1982
A.T. Green 3

1. Structural Integrity

AE Methodology for the Evaluation of Structural Integrity
K. Ono 17

Guided Wave Acoustic Emission from Fatigue Crack Growth in Aluminium Plate
C.K. Lee, J.J. Scholey, P.D. Wilcox, M.R. Wisnom, M.I. Friswell and B.W. Drinkwater 23

Acoustic Emission Testing of a Landing Gear Component
R. Pullin, K.M. Holford, S.L. Evans and M.G. Baxter 29

2a. Rotating Machinery

Detection of Incipient Damage in Large Rolling Element Bearings
L.M. Rogers 37

Use of AE Based Instrumentation to Monitor Machinery Condition in the Industrial Environment
T.J. Holroyd 45

2b. AE Waves and Signal Processing

Experimental Validation of Dispersion Curves in Plates for Acoustic Emission
R. Pullin, P. Theobald, K.M. Holford and S.L. Evans 53

Contrasts between the Acoustic Emission Signals Generated by Monopole Versus Dipole Sources
M.A. Hamstad 61

Progress Towards a Forward Model of the Complete Acoustic Emission Process
P.D. Wilcox, C.K. Lee, J.J. Scholey, M.I. Friswell, M.R. Wisnom and B.W. Drinkwater 69

Acoustic Emission Source Location Based on Signal Features
M. Blahacek, M. Chlada and Z. Prevorovský 77

Wavelet Transform and Bispectrum Applied to Acoustic Emission Signals from Adherence Scratch-Tests on Corroded Galvanized Coatings
A. Gallego, J.F. Gil, J.M. Vico, E. Castro, J.E. Ruzzante and R. Piotrkowski 83

3a. AE Sensors and Coupling

AE Sensor Calibration for Out-of-Plane and In-Plane Displacement Sensitivity
P. Theobald and F. Dar 91

Acoustic Emission Detection Using a Novel Fibre Optic Sensor
R.S. Chen, J.M. Burns, T. Bradshaw, P.T. Cole, P. Jarman, R. Theobald, D. Pedder and G.F. Fernando 99

Cutting Process Monitoring by Means of Acoustic Emission Method; Part I - New Approach of Acoustic Emission Sensor; Part II - Transformation of Acoustic Emission into Audible Sound
J. Zizka, P. Hana, L. Hamplova and Z. Motycka 105

Development of High-Temperature Acoustic Emission Sensor Using Aluminium Nitrade Thin Film
H. Noma, E. Ushijima, Y. Ooishi, M. Akiyama, N. Miyoshi, K. Kishi, T. Tabaru, I. Ohshima, A. Kakami and T. Kamohara 111

On the Reproducibility of Transducer Coupling for Acoustic Emission Testing
J.J. Hensman, C.V. Cristodaro, S.G. Pierce and K. Worden 117

3b. Pressure Vessels and Pipes

Detection of Corrosion Damage on Pressure Equipment with Acoustic Emission
G. Lackner and P. Tscheliesnig 127

AE Testing of Refinery Structures
B.S. Kabanov, V.P. Gomera, V.L. Sokolov, V.P. Fedorov and A.A. Okhotnikov 133

Investigation of Fatigue Crack Growth on Material for Reactor Pressure Vessel by Acoustic Emission
V. Svoboda, F. Žemlička and M. Brumovský 139

Acoustic Emission during Fatigue Testing of Pressure Vessels
F. Rauscher 147

Application of Acoustic Emission in Control of High-Pressure Pipe Overstraining
M. Nowak, I. Baran, J. Schmidt and Z. Plochocki 153

4. Case Studies - I

Monitoring of Rail-Wheel Interaction Using Acoustic Emission (AE)
N.A. Thakkar, J.A. Steel, R.L. Reuben, G. Knabe, D. Dixon and R.L. Shanks 161

Electromagnetic and Acoustic Emission Fine Spectra
J. Sikula, J. Majzner, P. Sedlak and Y. Mori 169

Evaluation of Repair Effect for Deteriorated Concrete Piers of Intake Dam Using AE Activity
T. Shiotani 175

Quantitative AE Techniques Standardized for Concrete Structures
M. Ohtsu 183

5. Concrete

Acoustic Emission Testing of Concrete Frame during Pseudo Dynamic Loading
A. Anastasopoulus, S. Bousias, A. Tsimogiannis and T. Toutountzakis 195

Acoustic Emission Parameters Dependence on the Destruction Process Characteristics into Concrete
S.V. Elizarov, A.L. Alyakritsky and A.I. Sagaidak 201

A Practical Investigation into Acoustic Wave Propagation in Concrete Structures
N. Muhamad Bunnori, R. Pullin, K.M. Holford and R.J. Lark 205

Acoustic Emission (AE) and Nonlinear Elastic Wave Spectroscopy (NEWS) for Online Monitoring of Concrete Curing
K. Van Den Abeele, W. Desadeleer, G. De Schutter and M. Wevers 213

6a. Corrosion

Acoustic Emission Monitoring of Al Corrosion in Cemented-Based Wasteforms
L.M. Spasova, M.I. Ojovan and C.R. Scales 223

Acoustic Emission for Corrosion Detection
P.T. Cole and J.R. Watson 231

Acoustic Emission Analysis of Crack Growth in a Corrosion Product
S. Mechraoui, S. Amami, A. Laksimi and S. Benmedakhen 237

Detection of Stress Corrosion Cracking of Type 304 Stainless Steel Using Acoustic Emission and Corrosion Potential Fluctuation
A. Yonezu, H. Cho and M. Takemoto 243

6b. Composites - I

Determination of Damage Levels of Composite Plates after Low Velocity Impacts Using Acoustic Emission
T.P. Bradshaw, M.J. Eaton, R. Pullin, S.L. Evans and C.A. Featherston 253

Acoustic Emission Monitoring of Defects in Buckling CFRP Composite Panels
M.J. Eaton, K.M. Holford, C.A. Featherston and R. Pullin 259

Acoustic Emission Testing of High-Pressure Composite Cylinders
J. Bohse, G.W. Mair and P. Novak 267

Initial Studies for AE Characterisation of Damage in Composite Materials
M.R. Venturini Autieri and J.M. Dulieu-Barton 273

7a. Phase Changes and Thermal Effects

Application of Laser AE to Microfracture at Elevated Temperature
M. Enoki and S. Nishinoiri 283

Application of Acoustic Emission for Monitoring the HVOF Thermal Spraying Process
N.H. Faisal, J.A. Steel, R. Ahmed, R.L. Reuben, G. Heaton and B. Allcock 291

Acoustic Emission Monitoring during Solidification Processes
J. Crha, J. Havlíček, J. Molínek and P. Kozelský 299

Dynamic Behavior of Two Types of Martensitic Transformations in Cu-Al-Ni Shape Memory Alloy Single Crystal by Acoustic Emission Method
K. Yoshida, T. Yasuda, D. Tani and H. Nishino 305

Correlation between Acoustic Emission and Internal Friction in Materials
A. Vinogradov 313

7b. Composites - II

Acoustic Emission in Wide Composite Specimens
J.J. Scholey, P.D. Wilcox, C.K. Lee, M.I. Friswell and M.R. Wisnom 325

AE Monitoring of CFRP Structure during Autoclave Processing
M. Knuuttila 333

Damage Mechanisms in Loaded Aramid Composites by Means of Embedded PVDF Acoustic Emission Sensors
C. Caneva, I.M. De Rosa and F. Sarasini 337

8. Case Studies - II

Detection of the Broken Wires in the Cables' Hidden Parts (Anchorings) by Acoustic Emission
H. Zejli, A. Laksimi, C. Tessier, L. Gaillet and S. Benmedakhene 345

Acoustic Emission Monitoring of Leaks in Pipes for Transport of Liquid and Gaseous Media: A Model Experiment
A.J. Brunner and M. Barbezat 351

Estimation of Rock In-Situ Stress by Acoustic and Electromagnetic Emission
Y. Mori, P. Sedlak and J. Sikula 357

Keynote Paper

More than a Quarterly Century of Acoustic Emission Testing (AT) at TÜV Austria
P. Tscheliesnig 365

9. Vendor Applications

Embedded Code Processing for the On-Line Use of User-Developed AE Analysis Routines
H. Vallen, J. Vallen and J. Forker 379

AE-Testing in Potentially Explosive Atmospheres - From the Requirements to an Intrinsically Safe System-Certified Realization
H. Vallen, J. Vallen and J. Forker 385

Continuous AE Monitoring of Structures – Can it Be Both Easy to Use and Effective?
T.J. Holroyd 395

Use of Advanced A.E. Analysis for Source Discrimination Using Captured Waveforms
P.T. Cole and M. Carlos 401

Sponsors' Adverts

10. Additional Papers

Diagnosis of Artificial Gear Defects on Single Stage Gearbox Using Acoustic Emission
T.H. Loutas, J. Kalaitzoglou, G. Sotiriades, E. Kayias and V. Kostopoulus 415

Damage Monitoring in Cyclic Loaded C/C Woven Composites Using the Acousto-Ultrasonics Approach
T.H. Loutas and V. Kostopoulus 421

Acoustic Emission Waveform Changes for Varying Seeded Defect Sizes
S. Al-Dossary, R.I. Raja Hamzah and D. Mba 427

Acoustic Emission for the Detection of Shaft-to-Seal Rubbing in Large Power Generation Turbines
M.J. Leahy, D. Mba, P. Cooper, A. Montgomery and D. Owen 433

EWGAE – Krakow 2008: Contents

Application of acoustic emission in the field of mechanical industry
C. Herve, S. Maillard, F. Zhang, L. Jaubert, J. Catty and M. Cherfaoui 1

Couplants and their influence on AE sensor sensitivity
Pete Theobald, Bajram Zeqiri and Janine Avison 13

A comparison of AE sensor calibration methods
Jiri Keprt and Petr Benes 19

Experimental transfer functions of practical acoustic emission sensors
Kanji Ono and Hideo Cho 25

Laboratory experiments for assessing the detectability of specific defects by acoustic emission testing
Franz Rauscher 31

Integrity evaluation of COPVs by means of acoustic emission testing
Yoshihiro Mizutani, Kouki Saiga, Hideyuki Nakamura, Nobuhito Takizawa, Takahiro Arakawa and Akira Todoroki 37

Structural integrity evaluation of CNG composite cylinders by acoustic emission monitoring
Olivier Skawinski, Patrice Hulot, Christophe Binétruy and Christian Rasche 43

Periodic inspection of LPG vessels within Europe
Peter Tscheliesnig 49

Assessment of stress corrosion cracking in prestressing strands using AE technique
Marianne Perrin, Laurent Gaillet, Christian Tessier and Hassane Idrissi 53

AE method for determination of pitting corrosion depth and monitoring of defect propagation rate
Yu. S. Popkov, A. L. Alyakritskiy, E. Yu. Sorokin and D. A. Terentyev 59

Acoustic emission monitoring of crack growth in dissimilar joints for corrosion resistant applications
Chiraz Ennaceur and Viviane Beaugrand 64

Contribution of acoustic emission to evaluate cable stress corrosion cracking in simulated concrete pore solution
S. Ramadan, L. Gaillet, C. Tessier and H. Idrissi 70

Automated method for statistical processing of AE testing data
V. A. Barat and A. L. Alyakritskiy 76

High-order statistics approach: automatic determination of sign and arrival time of acoustic emission signals
Tomáš Lokajíček and Karel Klíma 82

AE wave propagation and novel source location in composite plates
Mark J. Eaton, Rhys Pullin, Karen M. Holford and Carol A. Featherston 88

Spectral kurtosis-based virtual instrument for non-destructive acoustic emission targeting of termites
Juan-José G. De la Rosa, Antolino Gallego, Rosa Piotrkowski, Enrique Castro and Antonio Moreno-Muñoz 94

Acoustic emission analysis and acousto-ultrasonics for damage detection in GFRP adhesive joints
Andreas J. Brunner, Giovanni P. Terrasi, Till Vallée and Thomas Keller 100

Identification of damage initiation and development in textile composite materials using acoustic emission
D.S. Ivanov, S.V. Lomov, I. Verpoest and M. Wevers 106

Bending fracture behavior of 3D-woven SiC/SiC composites with transpiration cooling structure characterized by AE wavelet analysis
Toshimitsu Hayashi and Shuichi Wakayama 112

Crack creation kinetics characterization by electromagnetic and acoustic emission
Josef Sikula, Yasuhiko Mori, Tomas Lokajicek, Pavel Koktavy, Jiri Majzner and Petr Sedlak 118

Application of moment tensor analysis on microcracks in a salt mine
Gerd Manthei, Jürgen Eisenblätter and Thomas Spies 124

Changes of anisotropy of p-wave velocity propagation during deformation process of rock samples
Matěj Petružálek, Jan Vilhelm, Tomáš Lokajíček and Vladimír Rudajev 130

Acoustic emission monitoring of bridge structures in the field and laboratory
Rhys Pullin, Karen M. Holford, Robert J. Lark and Mark J. Eaton 136

Acoustic emission applied to damage monitoring of RC beam-column connections subjected to low-cycle fatigue loading
Amadeo Benavent-Climent, Antolino Gallego, Enrique Castro, Juan M. Vico and José Martínez-Jequier 142

Evaluation of damage accumulation in post-tensioned concrete beams by AE during high deformation loading cycles
Edoardo Proverbio, Giuseppe Campanella and Vincenzo Venturi 148

Monitoring compressive behaviour of concrete containing waste materials as aggregates using acoustic emission
Ajmol H. Choudhury, Derek Johnstone, A. Siddiqui and S. Jihan 154

Two-dimensional source location techniques for large composite plates
Jonathan J. Scholey, Paul D. Wilcox, Michael R. Wisnom and Mike I. Friswell 160

Arrival time detection in thin multilayer plates on the basis of Akaike information criterion
Petr Sedlak, Yuichiro Hirose, Manabu Enoki and Josef Sikula 166

Advanced acoustic emission source location in complex aircraft structure
Michal Blahacek and Zdenek Prevorovsky 172

On determination of accurate Lamb-mode group-velocity arrival times with different types of acoustic emission sensors
M. A. Hamstad 178

Benchmarking of tribology in sliding bearings by acoustic emission
B. Ziegler, R. Eichelbeck, H.-J. Schwalbe, K. Wierzcholski and A. Miszczak 184

Treatment of AE signal at contact damage tests of materials and bearings
Pavel Mazal, Lubos Pazdera, Martin Drab and Tomas Slunecko 190

Laser cutting and acoustic emission signals
Tomaž Kek and Janez Grum 196

Application of acoustic emission for the online monitoring of hot die forging processes (part-I)
Islam El-Galy, Hans Conrads and Bernd-Arno Behrens 202

Signal processing of acoustic emission data for chip-breakage recognition in machining
Roger Margot, Angelo Marcos Gil Boeira, Fredy Kuster and Konrad Wegener 208

Use of AE/AU techniques for monitoring wood drying defects
Sumire Kawamoto 214

AE monitoring of mechanical tests on plant fiber composites
Claudio Caneva, Igor Maria De Rosa, Carlo Santulli and Fabrizio Sarasini 220

AE analysis of fatigue fracture process in bone
Shuichi Wakayama and Tetsuya Suemune 226

Information potential of acoustic emissions on the dehydration stress behavior of wood
Sabine Rosner, Bo Karlsson, Johannes Konnerth and Christian Hansmann 232

Investigation of the through the thickness strength properties of paper by acoustic emission monitoring
S. Norgren, P. A. Gradin, S. Nyström and M. Gullikson 238

Damage identification in corroded galvanized and duplex coatings using wavelet power and entropy
Rosa Piotrkowski, Antolino Gallego, Enrique Castro, Juan de Mata Vico and J.J. González de la Rosa 244

AE source recognition by neural networks with optimized signal parameters
Milan Chlada and Zdenek Prevorovsky 250

An AE-model for residual strength prediction in fatigued FRP composites: parameter investigation
Theoni Assimakopoulou and Theodore Philippidis 256

Application of acoustic emission to technical evaluation of new pressure devices
Krystian Paradowski, Wojciech L. Spychalski, Jan Plowiec, Tomasz Lusa, Andrzej Zagorski, and Krzysztof J. Kurzydlowski 262

A framework for modelling the complete AE process in composite materials
Jonathan J. Scholey, Paul D. Wilcox, Michael R. Wisnom and Mike I. Friswell 268

Application of acoustic emission in optimizing the design of new generation castings of high-voltage electric devices
Jan Płowiec, Wojciech L. Spychalski, Huber Matysiak, Jakub Michalski 274

Experimental simulation and dynamic behavior of the AE due to martensitic transformation using shear wave transmission sensor
Takeshi Yasuda, Shinya Kondo, Hideo Nishino and Kenichi Yoshida 280

Wave propagation properties in layered materials
Minseok Bae, Sunhee Choi, Jisu Kim, Seokchan Hong and Young H. Kim 286

In-situ acoustic emission monitoring of zinc-phosphate coating formation on mild steel
Florica Simescu and Hassane Idrissi 292

Some results of AE testing of pressure vessels at Kirishi oil refinery
B.S. Kabanov, V.P. Gomera, V.L. Sokolov, V.P. Fedorov and A.A. Okhotnikov 298

Acoustic emission analysis of the over-straining of pipes in a polyethylene reactor
Ireneusz Baran, Marek Nowak and Kanji Ono 304

Semi-automatic testing of gas cylinders
Gerald Lackner and Rene Dusek 310

New developments of software for A-line family AE systems
Sergey Elizarov, Anton Bukatin, Mikhail Rostovtsev and Denis Terentyev 316

Detection of the response parameter change prior before and after realization of the frost-thawing test on ceramic tiles
Iveta Plskova, Zdenek Chobola, Michal Matysik and Jan Martinek 322

News in the field of digital acoustic emission signal processing
Hartmut Vallen and Jochen Vallen 328

Monitoring of fluidic systems by acoustic emission
L. Jaubert, S. Maillard and V. Sulis 334

Comparison between a neural networks and pattern recognition classification
Salah Mechraoui, Mathias André, Salim Benmedakhene, and Abdelouahed Laksimi 340

Purpose of Conference iv
The European Working Group on Acoustic Emission iv
The Cracow University of Technology v
The Polish Academy of Sciences vi
Review Processes of Conference Papers for EWGAE 2008 vi

EWGAE 2010
29th European Conference on Acoustic Emission Testing
Vienna, Austria, September 8-10, 2010

Table of Content

Acoustic Emission Source Location in Plate-Like Structures using a closely arranged Triangular Sensor Array
D. Aljets, A. Chong, S. Wilcox, 1
Department of Engineering, University of Glamorgan, Pontypridd, United Kingdom

Validation of AE-signals recorded with conventional Equipment using 3D-Scanning-Laser-Vibrometer
A. Albers, J. Schell, M. Dickerhof, B. Hessenauer, 10
Institut für Produktentwicklung, Karlsruher Institut für Technologie, Karlsruhe, Germany

Influence of specimen geometry on acoustic emission signals in fiber reinforced composites: FEM-simulations and experiments
M.G.R. Sause, S. Horn, 18
Institute for Physics, Experimentalphysik II, University of Augsburg, Augsburg, Germany

Acoustic Emission on-line Inspection of Rail Wheels
A. Anastasopoulos, K. Bollas, D. Papasalouros, D. Kourousis, 26
Envirocoustics SA, Athens, Greece

The use of acoustic emission testing on long term monitoring of damaged component
C. Allevato, 34
Stress Engineering Services, Inc., Houston, TX, USA

Cost effective corrosion and fatigue monitoring by means of acoustic emission (AE) on transport products (CORFAT)
P. Tscheliesnig, 40
Institute for Technical Physics, TÜV Austria Services Gmbh, Vienna, Austria

Online Monitoring of Hot Die Forging Processes Using Acoustic Emission (Part-II)
I. El-Galy, B. Behrens, 46
Leibniz Universität Hannover, Garbsen, Germany

Inspection of the pressure vessel used in petrochemical with AE examination
V. Gomera, V. Sokolov, V. Fedorov, A. Okhotnikov, M. Saykova, 54
Kirishinefteorgsintez Ltd, Kirishi, Russia

A Study on Failure behavior of CFRP Bolted Joints with Cone Washers by Using AE Monitoring.
T. Katsumata, Y. Mizutani, A. Todoroki, R. Matsuzaki, 63
Tokyo Institute of Technology, Tokyo, Japan

AE monitoring in surface treatment of materials
M. Enoki, 71
The University of Tokyo, Tokyo, Japan

Correlation of Acoustic Emission And Fractographic Characteristics During Fatigue Crack Development
A. Urbah, A. Shaniavsky, S. Doroshko, M. Banov, 79
Riga Technical University (RTU), Riga, Latvia

Health monitoring of reinforced concrete slabs during seismic tests using acoustic emission
A. Gallego, A. Benavent-Climent, J.M. Vico, C. Infantes, E. Castro, 87
University of Granada, Granada, Spain

Fatigue Damage Analysis of Pultruded Glass Fiber Reinforced Materials with Acoustic Emission Methods
D. Crivelli, M. Guagliano, D. Marangoni, A. Monici, 95
Dipartimento di Meccanica, Politecnico di Milano, Milano, Italy

Effects of Material Structure of Concrete on Acoustic Emission Signal Parameters
M. Korenska, L. Pazdera, M. Manychova, 103
Brno University of Technology, Brno, Czech Republic

Acoustic emission during three-point bending test of corroded galvanized steel
A. Gallego, E. Suarez, J. Vico, C. Infantes, R. Piotrkowski, 111
University of Granada, Granada, Spain

Diagnostics of high-voltage varistors by acoustic emission
L. Hasse, J. Smulko, L. Kaczmarek, 118
Gdansk University of Technology, Gdansk, Poland

Monitoring of acoustic emission SIGNAL of loaded axial bearings
F. Hort, P. Mazal, F. Vlašic, 125
Brno University of Technology, Brno, Czech Republic

Study of metal hydride electrodes for Ni-MH batteries by acoustic emission
A. Etiemble, L. Roue, H. Idrissi, 133
Laboratory MATEIS - Team Ri2S, INSA-Lyon, Villeurbanne, France

Introduction to the mechanical characterization of reinforced plastic materials using the Acoustic Emission Technique
F.J. Juanes, Á. Valea, A. Gallego, J. Martínez-Jequier, M. Luz Gonzalez, 140
The University of the Basque Country (UPV/EHU), Bilbao, Spain

Analysis of fracture resistance of tool steels by means of Acoustic Emission
E. Martinez-Gonzalez, I. Picas, D. Casellas, J. Romeu, 146
Universitat Politècnica de Catalunya (UPC), Barcelona, Spain

Acoustic and electromagnetic methods for wood
M. Tiitta, L. Tomppo, J. Van der Beek, R. Lappalainen, 153
Dept. of Physics and Mathematics, University of Eastern Finland, Kuopio, Finland

Comparison of Acoustic Emission Signal and X-Ray Diffraction at Initial Stages of Fatigue Damage
F. Vlašic, P. Mazal, F. Hort, 159
Brno University of Technology, Brno, Czech Republic

The Acoustic Emission Testing: A Promising Tool for the Health Structural Monitoring of the Compressed Gas Cylinder Fully Wrapped with Composite Materials
S. Ramadan, S. Yaacoubi, D. Chauveau, 167
Institut de Soudure Enseignement et Recherche, Yutz, France

Acoustic Emission method as a Comparative Tool for Results Obtained Using Impedance Spectroscopy - Applied for Cementing Compound Specimens with Various Capillary Porosity Levels
I. Kusák, M. Lunák, L. Pazdera, 174
Brno University of Technology, Brno, Czech Republic

Propagation of Acoustic Emission and Acousto-ultrasonic Waves in Wood Materials
S. Kawamoto, M. Kiguchi, Y. Kataoka, M. Matsunaga, M. Kobayashi, S. Rosner, S. Okumura, 181
Forestry & Forest Products Research Institute, Ibaraki, Japan

Application of acoustic emission method for brickwork diagnostics
A. Sagaidak, S. Elisarov, 190
Research and Development Institute for Concrete and Reinforced Concrete, Moscow, Russia

Quality Prediction of Foil Capacitors by Acoustic Emission Signals
K. Józwiak, M. Olesz, L. Hasse, J.M. Smulko, 194
Gdansk University of Technology, Gdansk, Poland

Characteristics of Acoustic Emission from Impact-Damaged CFRP Pressure Vessel during Pressurization Test
S. Sugimoto, Y. Mizutani, A. Todoroki, R. Matsuzaki, 200
Tokyo Institute of Technology, Tokyo, Japan

Monitoring the Thermowood process by means of Acoustic Emission technology
J. Van der Beek, M. Tiitta, 208
Dept. of Physics & Mathematics, University of Eastern Finland, Kuopio, Finland

Fatigue Testing of Ship Building Material with Acoustic Emission
I. Baran, M. Nowak, J. Schmidt, 215
Laboratory of Applied Research, Cracow University of Technology, Kraków, Poland

A case study for crack detection within a gas cylinder using acoustic emission testing
G. Lackner, R. Dusek, 224
Institute for Technical Physics, TÜV Austria Services Gmbh, Vienna, Austria

Examination and Generation Condition of Screech Tone Detected during Gas Leakage on Pipe Using Acoustic Emission Technology
K. Yoshida, R.N. Laodeno, H. Nishino, 231
Institute of Technology and Science, The University of Tokushima, Tokushima-city, Japan

Low-cost USB acoustic emission system for damage monitoring in fibre reinforced composite materials
J. Burns, T. Bradshaw, P. Cole, A. Anastasopoulos, 239
Physical Acoustics Ltd, Cambridgeshire, United Kingdom

Use of AE monitoring in laser cutting and resistance spot welding
T. Kek, J. Grum, 247
Faculty of Mechanical Engineering, University of Ljubljana, Ljubljana, Slovenia

Reinforcement effect on the ultrasonic pulse velocity in concrete, depending on the sounding method and measuring device
U. Lencis, A. Üdris, A. Korjakins, 254
Riga Technical University, Riga, Latvia

Acoustic Emission Monitoring of the Expansion of Fatigue Cracks in The Rolling Mill
E. Nefedyev, A. Sudakov, 262
Central Boiler and Turbine Institute (CKTI), St.-Petersburg, Russia

AE-SiGMA Analysis in Brazilian Test and Accelerated Corrosion Test
M. Ohtsu, Y. Kawasaki, 268
Graduate School of Science and Technology, Kumamoto University, Kumamoto, Japan

Inclusion Fracture in Model Aluminium Alloy Characterized by Acoustic Emission and X-Ray Tomography
J. Courbon, V. Carmona, E. Maire, 276
INSA de Lyon, laboratoire MATEIS, Villeurbanne, France

Is it Possible to Applied Acoustic Emission Method during Concrete Hardening?
L. Pazdera, L. Topolar, V. Bilek, J. Smutny, M. Korenska, 282
Brno University of Technology, Brno, Czech Republic

Non- Destructive Acoustic Test (NDAT) to determine elastic modulus of polymeric composites
M.M. Jalili, A. Pirayeshfar, S.Y. Mousavi, 288
Engineering and Technical, Islamic Azad University-Science and research branch, Tehran, Iran

Acoustic emission of conifer sapwood becomes weaker after each dehydration-rewetting cycle
S. Rosner, S. Kawamoto, 295
BOKU Vienna, Vienna, Austria

Electromagnetic and Acoustic Emission in PEEK/Carbon Nanotube Composites
P. Sedlak, M. Enoki, T. Ogasawara, J. Sikula, 303
Department of Physics, FEEC, Brno University of Technology, Brno, Czech Republic

Buckling detection within subsea pipeline laying using Acoustic Emission technique
M. Shehadeh, M. Geliel, A. El-Araby, 309
Arab Academy for Science, Technology and Maritime Transport, Alexandria, Egypt

The use of Acoustic Emission method for detection and location corrosion damages on railway steel bridges
M. Nowak, I. Baran, J. Schmidt, 317
Laboratory of Applied Research, Cracow University of Technology, Krakow, Poland

Acoustic emission analysis used to investigate the spalling effect of concrete under fire load
C. Grosse, R. Richter, J. Ozbolt, 325
Technische Universität München, München, Germany

Intelligent AE signal filtering methods
V. Barat, Y. Borodin, A. Kuzmin, 331
INTERUNIS, Moscow, Russia

Evaluation of Increasing Damage Severity In Concrete Structures by Cluster Analysis of Acoustic Emission Signals
G. Campanella, L. Calabrese, E. Proverbio, 337
Dept. Industrial Chemistry and Material Engineering, University of Messina, Messina, Italy

Discrimination of Acoustic Emission hits from dynamic tests of a reinforced concrete slab
E. Castro, R. Piotrkowski, A. Gallego, A. Climent, 345
Politechnic University of Cartagena, Cartagena, Spain

Neural Network AE Source Location Apart from Structure Size and Material

M. Chlada, Z. Prevorovsky, M. Blahacek, 351
Institute of Thermomechanics AS CR, v. v. i., Prague, Czech Republic

Frequencies and Amplitudes of AE Signals in a Plate as a Function of Source Rise Time
M. Hamstad, 359
Department of Mechanical and Materials Engineering, University of Denver, Denver, CO, USA

Using PCA in Acoustic Emission Condition Monitoring to Detect Faults in an Automobile Engine
P. Kabiri, A. Makinezhad, 367
Computer Engineering School, Iran University of Science and Technology, Tehran, Iran

Identifying Acoustic Emission Events with Similar Transfer Functions
F. Rauscher, 375
Vienna University of Technology, Vienna, Austria

Measurement of Mixture Mass Ratio by Acoustic Emission Method
P. Beneš, M. Uher, 383
Brno University of Technology, Brno, Czech Republic

Observation for Proportion of Super-elastic Martensitic Transformation in Cu-Al-Ni Shape Memory Alloy with AE Simulation
T. Yasuda, T. Nagamachi, H. Nishino, B. Pang, K. Yoshida, 389
The University of Tokushima, Tokushima, Japan

Comparison of acoustic emission behavior of various oxide and fiber composite ceramic systems
A. Papargyris, S. Papargyri-Mpeni, D. Papargyris, 398
Technological Educational Institute, Larissa, Larissa, Greece

Velocity sensitivity calibration of AE sensors using the through wave method and laser interferometry
P. Theobald, R. Pocklington, 406
National Physical Laboratory, Teddington, United Kingdom

New developments in the field of AE systems, sensors & software
H. Vallen, J. Vallen, T. Thenikl, 413
Vallen Systeme GmbH, Icking, Germany

Bar-Wave Calibration of Practical AE Sensors
K. Ono, H. Cho, T. Matsuo, 420
University of California, Los Angeles, CA, USA

Characterization of Broadband Acoustic Emission Sensors
G. Manthei, 429
Fachhochschule Gießen-Friedberg, University of Applied Sciences, Gießen, Germany

Latest improvements on Freeware AGU-Vallen-Wavelet
J. Vallen, H. Vallen, 438
Vallen Systeme GmbH, Icking, Germany

Acoustic Emission Monitoring of Tensile Tests on Welded Wood-Joints
A. Brunner, T. Tannert, T. Vallée, 446
Laboratory for Mechanical Systems Engineering, EMPA, Dübendorf, Switzerland

AE Analysis of Damage Process in Thin Film Solar Cells under Mechanical Strain
S. Wakayama, Y. Mizutani, 453

2010

Department of Mechanical Engineering, Tokyo Metropolitan University, Tokyo, Japan

Acoustic Emission for monitoring two-phase flow
S. Husin, A. Addali, D. Mba, 459
School of Engineering, Cranfield University, Bedfordshire, United Kingdom

EWGAE 2010
29th European Conference on Acoustic Emission Testing
Vienna, Austria, September 8-10, 2010

Contents of Combined Volume

Research and applications of AE on advanced composites
Kanji ONO, Antolino GALLEGO 1

AE and other observations during cyclic testing of A572 steel laboratory specimens
Adrian A. POLLOCK, Jianguo (Peter) YU, Paul ZIEHL 45

Quantitative acoustic emission measurement of laser peening
Manabu ENOKI, Kazutaka KOBAYASHI, Tomoki TAKATA, Akinori MATSUI, Yuji KOBAYASHI, 59

Health monitoring of a NEG-MICON 750kW wind turbine blades with acoustic emission
Dimitrios PAPASALOUROS, Nikos TSOPELAS, Ioannis LADIS, Dimitrios KOUROUSSIS, Athanasios ANASTASOPOULOS, Denja LEKOU, Fragiskos MOUZAKI, 67

Correlation between acoustic emission and torque in drilling
Martin GOMEZ, José RUZZANTE 81

Failure analysis of NOL-ring specimens by acoustic emission
Marina PLÖCKL, Markus G.R. SAUSE, Joachim SCHARRINGHAUSEN, Siegfried HORN, 94

An investigation of the static damage mechanisms of pultruded glass fiber reinforced polymers with artificial neural networks
Davide CRIVELLI, Mario GUAGLIANO, Alberto MONICI, 106

Evaluation of the destruction process of metal-composite cylinders with use of acoustic emission method
Jerzy SCHMIDT, Marek NOWAK, Ireneusz BARAN, 119

Non destructive testing of GAIA frame by means of acoustic emission monitoring during launch simulation tests
Franck LEVALLOIS, André SOBECZKO, Alain PROUST, Jean-Claude LENAIN, 126

Benefits of acoustic emission for the testing of aerospace composite assemblies
Louis ADAM, Elodie BONHOMME, Clément CHIROL, Alain PROUST, 138

Remote AE monitoring of fatigue crack growth in complex aircraft structures
Milan CHLADA, Zdenek PREVOROVSKY, 150

Acoustic emission related to stomatal closure of four deciduous broad-leaved woody species
Sabine ROSNER, 158

Correlation of sap flow changes in trees with signal of acoustic emission during field measurements
Pavel MAZAL, Michal CERNY, Frantisek VLASIC, Libor NOHAL, 167

Investigation of failure processes in the human femur using signal-based acoustic emission techniques
Florian STARK, Fabian MALM, Eduardo GRANDE GARCIA, Peter FÖHR, Rainer H. BURGKART, Franziska REIDL, Christian GROSSE, 175

AE signal processing in dynamical tests of reinforced concrete structures
Miguel Eduardo ZITTO, Mariano SCARAMAL, Francisco A. SAGASTA , Rosa PIOTRKOWSKI, Antolino GALLEGO, Enrique CASTRO, 185

Real-time acoustic emission classification: new evolutionary approach
Eraldo POMPONI, Alexei VINOGRADOV, 198

Acoustic emission source location in steel structures using a wavelet transform analysis and modal location theory
Shukri MOHD, Karen HOLFORD, Rhys PULLIN 206

Use of Lamb wave dispersion curves extraction from AE signal spectrogram for determination of distance to AE source
Denis TERENTYEV, Yuri BORODIN, 217

Comparison of time of arrival and delta t source location for acoustic emission in GLARE
John Patrick McCRORY, Rhys PULLIN, Matthew Robert PEARSON, Mark Jonathan EATON, Carol A FEATHERSTON, Karen M HOLFORD, 222

Monitoring erosion-corrosion in carbon steel elbow using acoustic emission technique
Mohamed SHEHADEH, Ibrahim HASSAN, Hany MOURAD, Hassan EL-GAMAL, 231

New intrinsically safe acoustic emission sensor system for use on tank ships
Thomas THENIKL, Hartmut VALLEN, Dirk ALJETS, 243

Analytical verification of the active AE sources in the integrated SHM systems
Igor RAZUVAEV, Evgeny A. SUCHKOV 250

Acoustic emission monitoring of high temperature crack propagation in AISI 304L and P265GH
Catherine HERVE, Fethi DAHMENE, Abdelouaedh LAKSIMI, Lionel JAUBERT, Said HARIRI, Mohammed CHERFAOUI, Anne MOUFTIEZ, 256

Theoretical analysis and experimental study of gas pipeline leak acoustic emission signal transmit speed
Gongtian SHEN, Xianyong QIN, Renyang HE, Changzheng XILI 269

Primary calibration of acoustic emission sensors by the method of reciprocity, theoretical and experimental considerations
Seydou DIA, Thomas MONNIER, Nathalie GODIN, Fan ZHANG, 280

Absolute calibration of acoustic emission transducers as per CEN ISO/TR 13115 in disuse of mechanical sound sources or reference transducers
Hajime HATANO, 288

Acoustic emission monitoring of tensile tests on packaged piezoceramic wafer transducers
Andreas J. BRUNNER, Florian BACHMANN, 296

Comparison of methods for absolute calibration of wideband AE sensors
Petr BENES, Jiri FIALKA, 307

Acoustic emission and ultrasonic transmission monitoring of hydraulic fracture initiation and propagation in rock samples
Sergey STANCHITS, Aniket SURDI, Roberto SUAREZ-RIVERA, 316

Application of the cluster method on acoustic emission events in salt rock specimen
Gerd MANTHEI, Jürgen EISENBLÄTTER, 330

Acoustic emission on the Peteroa volcano (2009-2011), Argentina
Maria Isabel LOPEZ PUMAREGA, Cynthia HUCAILUK, Giovanni P. GREGORI, Grabiele PAPARO, Jose Evaristo RUZZANTE, Nicolas NUÑEZ, Giuliano VENTRICE, Claudio RAFANELLI 341

RQA Applied to acoustic emissions time series to pinpoint feasible precursors of catastrophic geological events
Maurizio POSCOLIERI, Claudio RAFANELLI, Giovanna ZIMATORE, 354

Recent advances of AE technology for damage assessment of infrastructures
Tomoki SHIOTANI 364

Use of AE method for detecting quality of injection mold engraving inserts
Dragan KUSIC, Tomaz KEK, Janez Marko SLABE, Rajko SVECKO, Janez GRUM, 385

Acoustic emission in diesel engines – a time series model for the injection process
Wael ABDOU, Nikolaos BALODIMOS, Bob REUBEN, 394

Acoustic emission (AE) monitoring on transport products
Peter TSCHELIESNIG, 407

Acoustic emission monitoring of structural elements a ship for detection of fatigue and corrosion damages
Ireneusz BARAN, Marek NOWAK, Andreas JAGENBREIN, Henryk BUGLACKI 414

Acoustic methods as a tool for management of electrochemical process of energy
Nina KIRCHEVA, Sylvain TANT, Benoit LEGROS, Sylvie GENIES, Sebastien ROSINI, Pierre Xavier THIVEL, 427

On the use of the acoustic emission technique for in-situ monitoring of the pulverization of battery electrodes
Aurélien ETIEMBLE, Hassane IDRISSI, Lionel ROUÉ, 437

Magneto acoustic emission and barkhausen noise in A508 class II steel
Miriam Rocio NEYRA ASTUDILLO, Nicolás NUÑEZ, Isabel LOPEZ PUMAREGA, Darío N. TORRES, José RUZZANTE, 446

Assessment of sound emission phenomena at a boundary layer during steel quenching
Franc RAVNIK, Janez GRUM, 456

Evaluation of AE sources during tensile deformation of Al-Mg-Si alloys with different heat treatment
Kenichi YOSHIDA, Yuichi TOKUYAMA, Yoshihiro YASUHARA, Hideo NISHINO, 469

Mechanisms of plastic deformation and acoustic emission in ZK60 Mg alloy
Alexei VINOGRADOV, Alexei DANYUK, Eraldo POMPONI, 476

Effect of plastic strain on low-cycle fatigue life and fatigue damage detection
Yoshihiro MIZUTANI, Makoto OHTA, Akira TODOROKI 488

AE studies on the durability of flexible dye-sensitized solar cells
Shuichi WAKAYAMA, Nobuyuki TAKAGI, Takenobu SAKAI, Masashi IKEGAMI, Tsutomu MIYASAKA, 498

Application of ICI principle for the first-arrival time correction
Vera BARAT, Sergey ELIZAROV, Irina KOVALCHUK, Evgeniy BOLOKHOV, 506

Using X22-correlation for subclustering and relative location of acoustic emission signals
Franz RAUSCHER, 516

AE event detection under noisy environment with continuous waveform recording and multiple thresholds
Kaita ITO, Hitoshi KURIKI, Seiji KURODA, Manabu ENOKI, 530

Acoustic emission defects localized by means of geodetic iterative procedure - algorithms, tests, AE experiment
Vaclav KUS, Michal ZAVESKY, Zdenek PREVOROVSKY 536

A waveform-based study of AE wave propagation by use of eight sensors on a composite pressure vessel
Marvin HAMSTAD, 548

Influence of internal discontinuities on ultrasonic signal propagation in carbon fiber reinforced plastics
Markus SAUSE, Siegfried HORN, 562

An improved acousto-ultrasonic scheme with Lamb wave mode separation and damping factor in CFRP plates
Kanji ONO, Antolino GALLEGO, 573

Remote sensing of leaks parameters by acoustic emission method
Evgeny NEFEDYEV 581

Qualification of the acoustic emission method for leak detection in the main primary loop of the pressurized water reactors during its hydraulic pressure test
Yann FORESTIER, Zhang FAN, Laurent TRUCHETTI 590

Analysis of corrosion processes and leaks in aboveground storage tanks in aspect of AE monitoring system
Ireneusz BARAN, Gerald LACKNER, 599

Improved noise discrimination for ammonia tank testing
Martin J. PEACOCK, 611

Progressive approaches to localization and identification of AE sources
Zdenek PREVOROVSKY, Josef KROFTA, Milan CHLADA, Zuzana FAROVA, Vaclav KUS 626

Initial results on acoustic emission detection in masonry with optical fibre sensors
Els VERSTRYNGE, Martine WEVERS, 641

Multivariate and artificial neural network analyses of AE data during long time corrosion monitoring of a post-tensioned concrete beam
Edoardo PROVERBIO, Luigi CALABRESE, Giuseppe CAMPANELLA 655

Low-level AE during long-term monitoring of concrete
Adrian A. POLLOCK, 666

Experience of acoustic emission method application for estimation of building structures condition
Alexander SAGAIDAK, Sergey ELIZAROV, 679

Guide for acoustic emission examination of reinforced concrete bridges
Gregory MURAVIN, Boris MURAVIN, 687

Damages monitoring for oil & gas pipeline using AE technique
Sergio BUDANO, Antonio LUCCI, Roberto PIANCALDINI, Luca PRANDI, Giuseppe GIUNTA, 699

The multipurpose portable NDT device "UNISCOPE"
Sergey Vladimirovich ELIZAROV, Alexander L. ALYAKRITSKIY, Vassily G. KOLTSOV, Vera A. BARAT, Pavel N. TROFIMOV, 711

New intrinsically safe acoustic emission sensor system for use on tank ships
Hartmut VALLEN, Thomas THENIKL, 718

Nondestructive evaluation courses for undergraduate engineering and engineering technology students
Vladimir GENIS, Adrian POLLOCK, 729

Developing an acoustic emission measuring system based on modular high speed data acquisition devices
Gabor POR, Laszlo DOSZPOD, Tibor DOBJAN 742

Modeling of the far-field acoustic emission from a crack under stress
Warida BEN KHALIFA, Karim JEZZINE, Sébastien GRONDEL, Alain LHÉMERY, Sylvain CHATILLON, 753

Acoustic emission during crack growth by a hybrid semi-analytical/BEM model
Mabrouk BEN TAHAR, Gaetan HELLO, Nacera BEDRICI, 776

AE study of damage evolution in pressure vessels under cyclic loading
A. LAKSIMI, C. HERVE, C. ENNACEUR, M. CHERFAOUI, 784

Experience on "AFIAP" guide to good practice for acoustic emission testing of pressure equipment
M. CHERFAOUI, C. DI GIULIO, C. HERVE 796

Failure mechanisms of carbon-fiber-reinforced polymer materials characterized by acoustic emission techniques
Martin RADLMEIER, Peter JAHNKE, Heinrich MEYER, Christian GROSSE 804

An interesting AE proficiency test
Janos GEREB, Ferenc FÜCSÖK 812

Experimental study on feature selection using artificial AE sources
Gabriel CSEFALVAY, 819

Maintenance scheduling and improve bridge load management
S.P. SANTOSPIRITO, Robert WALKER, Kamil SŁYK 826

Mechanical characterization of the damage process in a structural adhesive joint by acoustic emission
Francisco Javier JUANES, Angel VALEA, Maria Luz GONZÁLEZ, José Carlos MÍGUEZ, Antolino GALLEGO 839

3D model based on regular cubic cell mesh for AE sources location on complex industrial structures
Alexey B. SAMOKHVALOV, Victor V. SHEMYAKIN, 846
